

OPENING GUN

Of the 1926 Enrollment Campaign for Citizens' Military Training Camps To Be Broadcast Monday Night.

Columbus Feb. 25. — The opening gun of the 1926 enrollment campaign for the Citizens' Military Training Camps will be broadcast over radio station WAIU, Columbus, Monday night at 8 o'clock, when Lt. Colonel Francis W. Glover, officer in charge of the C. M. T. C. in Ohio, Indiana, Kentucky and West Virginia, will tell how young men 17 to 24 years of age may take advantage of the camps.

Citizens' Military Training Camps are to be held this year at both Camp Knox, Ky., and Fort Benjamin Harrison, Ind., and a third camp will be established for the first time at Fort Thomas, Ky. Fort Thomas and Fort Harrison will be operated from July 15 to August 13, and the training period at Camp Knox will be from July 7 to August 5.

Colonel Glover hopes to announce Monday night the quotas for the four states of the corps area, which have not yet been definitely fixed. He indicates, however, that there will not be a proportionate increase in quotas for the camps as in years past. It is expected that approximately the same number of men will be accommodated as last year when 6,050 were enrolled.

Conducted by the government each summer since their origin in 1921, Citizens' Military Training Camps have become an institution with American youth. With all expenses paid, including even transportation, the camps have furnished many a youth a healthful and enjoyable vacation who would otherwise have been forced to stay at home.

C. M. T. C. Camps, however, are not designed necessarily for the poorer classes. In previous years their programs, including as it does, camping, hiking, shooting, drilling and every phase of sport, has attracted youths of all stations from the President's son on down. Their object is to increase the mental, moral and physical fitness of present day youth by giving them each year thirty days under the most favorable conditions of outdoor life.

Radio listeners Monday night will also be afforded an opportunity to hear the Fort Hayes 24 piece military band, one of the foremost musical aggregations in the Army, which will give a concert under the direction of Staff Sergeant Andrew Wyatt, immediately following the Colonel's talk.

DO NOT WANT LOCAL BUS LINE

Columbus, Feb. 24.—(UP.)—The mayor, council members and leading citizens of Grand Rapids, Woods county, today in a lengthy telegram to the State Utilities Commission, protested against granting a franchise for a local bus line from Napoleon to Grand Rapids.

The consensus of opinion among the signers of the telegram was that another contemplated bus line, running from Fort Wayne, Ind., to Toledo, and passing through Grand Rapids, will give far better service than a local line.

Benton Manard, mayor, six members of the council and 17 leading citizens, signed the telegram.

Healthy Appetite

An alligator weighing 1,000 pounds consumes 40 pounds of meat daily.

WASHINGTON SPECIALS

Washington, Feb. 25.—(UP.)—A five-year aircraft building program for the army, similar to that of the navy, will be presented to Congress in a war department bill next week. Though department officials would not discuss figures involved, it was understood the aim is to double the present standing strength of 700 effective planes. The navy program is for 1,000 planes. The total cost of the army plan will be under the \$100,000,000 of the navy program, it is thought.

Acting Secretary of Labor White announced today that immigration authorities would not take further action in the exclusion of Vera, Countess of Cathcart until the English noblewoman's habeas corpus proceedings are disposed of in the U. S. district court of New York next week. "The policy of the department is not to grant a hearing to a person seeking admittance while the case is in court," White said. "If the court admits the countess into the country then the entire matter is closed. Should the court reject the countess," White said, "then she can re-appeal her case and the department will consider whether it will hear the case over again."

Assistant Secretary of the Treasury Andrews will recommend to congress this week that legislation be passed making jail sentences compulsory for convicted moonshiners, bootleggers and others trafficking in liquor. Treasury officials today said the administration's new dry legislative program had "teeth" in it. Andrews, it was said, will urge congress to change the statutes reading "fine or imprisonment" to "fine and imprisonment;" courts would be allowed to suspend sentences where the facts of the case warranted such action but this system would put the bootlegger on parole and should he be convicted a second time

the penalty would be twice as severe.

NATIONAL

Educational Association Convention In Session.

Washington, Feb. 25.—(UP.)—"Moral turpitude" was recognized at the National Educational Association convention today as a distinct American problem. At a joint meeting with the national conference of social work a program was discussed to teach boys and girls the rudiments of character "so that such things cannot happen."

"Thank goodness, the newspapers have a new phase," said Miss Olive M. Jones, New York City principal. "Moral turpitude has superseded 'crime wave' but it is the same thing so far as the problem of training behavior is concerned."

The relation of education to morals is acknowledged but the schools cannot carry all the responsibility said Miss Jones.

"The teacher, parents, priest or preacher and the social worker must combine forces to overcome the forces of evil which produce our recurring, so-called crime waves," she said.

**EXAGGERATION OF INDIAN
ATTACKS IN WEST IS TOLD**

Prof. Hulbert, Director of Commission on Western History, Reaches Conclusion After Much Research.

Colorado Springs, Colo.—Historical action of the Wild West appears to have exaggerated the number of sanguinary attacks by Indians upon immigrant trains along the old Oregon trail. Nature, and not the aborigines, furnished most of the dangers encountered by the pioneers.

These conclusions have been reached by Prof. Archer H. Hulbert, director of the commission on western history, who has just completed the task of mapping six of the most famous old trails from the Missouri river to the Pacific coast.

In a space of forty miles along the Carson river on the trail broken by the forty-niners, 4,000 dead cattle and 3,000 abandoned wagons were left to record the history of the hardships they suffered in the trek for gold. Miners built houses of these wagon wrecks in the days of the Comstock lode discovery in Nevada a decade later.

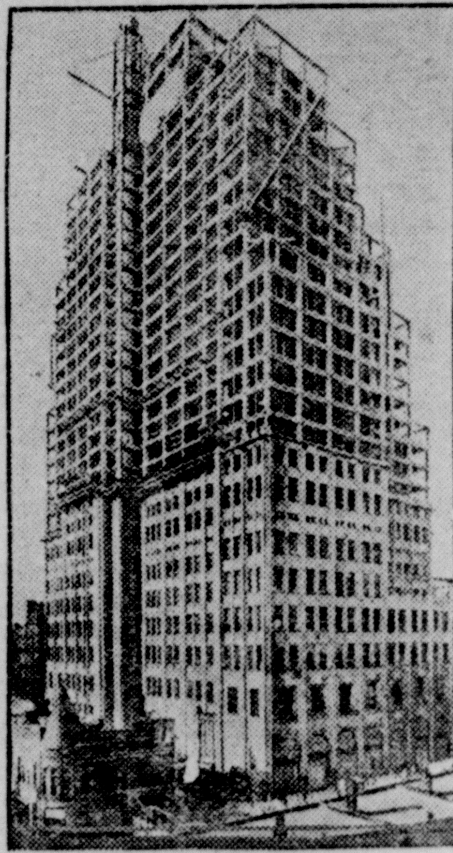

Great rivers were not difficult to cross when "dats" or rafts were secured, but the thousands of little "cut-bank" creeks not more than ten feet wide were the daily terror of the teamsters and delayed the caravans more than did the few rivers of the West.

Trappers and gold hunters suffered from Indian attacks more than did the great immigrant trains in the era of mass migration to Oregon. Between 1842 and 1850 the number of trains that were seriously molested by the red men were few, the investigators found.

Information used in the survey and map making was obtained from state and county surveyors' offices, from the original surveys in the general land office at Washington and by studying the diaries of 150 old-time travelers and pioneers.

In addition to the Oregon trail the map reproduces the routes of the Mormon trail fork from Omaha to Fort Laramie; the Nebraska City-Fort Kearney branch; the California trail from Yale post office, Idaho, to the coast; the Salt Lake branch of the California trail; the Forty-niners' trail on Raft river in northwestern Utah; the Salt Lake-Placerville route, and the Overland Stage branch of the main trail from Julesburg, Colo., to Salt Lake City.

**Telephone Co. Builds
Sky Scraper in St. Louis**

This \$5,000,000 building of the Southwest Bell Telephone company, 31 stories high, is now the tallest building in St. Louis, Mo. It stands on the block bounded by Tenth, Eleventh, Chestnut and Pine streets.

**New Universe Pictured
by Savant and Measured**

Chicago.—Another universe, similar to our own, but inconceivably distant in space, has been photographed and measured by Dr. Edwin Hubble, he relates in the Astro-Physical Journal of the University of Chicago.

It is 66,000,872 billion miles from the earth to the galaxy of stars which compose the other universe.

From observations made at Mount Wilson observatory, in California, the scientist has reduced to measurement the universe which was first seen in 1884. Expressing its distance from the earth as 700,000 light years, he estimates the galaxy measures 4,000 light years across. Photographs taken with light which left the universe thousands of years ago show it to be a system of stars similar in appearance to the familiar milky way.

**Doctor Parading as Man
for 25 Years Is Woman**

Mena, Ark.—Serious illness of Dr. M. V. Mayfield, seventy-four, well-known physician of Mena, has revealed that although Doctor Mayfield has been practicing here for 25 years as a man, the doctor was a woman. When her secret became known, Doctor Mayfield told friends her parents in England needed a son to meet legal requirements to protect property rights. They dressed her as a boy and as time wore on the habit became her own.

CUT HIS SON OFF

In His Will Did Father of U. S. Senator Hiram Johnson.

Sacramento, Calif., Feb. 24.—(U.P.)—Love for his son, U. S. Senator Hiram W. Johnson, is expressed in the will of Grove L. Johnson, who died here Feb. 1.

"I make no provision for my son Hiram," the document on file in superior court here today reads, "because he does not need any financial assistance from my estate; hence, I leave him only my love and my pride in his success in life."

Mrs. Helen Alice Johnson, the widow, is the principal beneficiary under the will which provides for disposition of personal property valued at less than \$10,000.

WORSE AND WORSE

This story is told on a prominent westerner and happened in the days before prohibition. He was standing on a street corner when his attention was attracted to two unusually homely women who were conversing a short distance beyond. Turning to a business man acquaintance, he remarked, "Did you ever see a homelier woman in your life; who is she?" indicating one of the women.

"That's my sister," answered the business man. In a desperate effort to square himself the prominent citizen said, "I don't mean that lady, but the other."

"She is my wife," coldly remarked the acquaintance. Mumbling something about having to catch a train, the prominent citizen departed hastily.—Pittsburgh Chronicle-Telegraph.

Date and Nut Puff.

One-half cup stoned dates, 7/8 cup broken nut meats, 3 tablespoons flour 1/2 teaspoon baking powder, 1 tablespoon water, few grains salt, 7/8 cup sugar, 1 egg.

Mix and sift flour, baking powder and salt. Mix well with dates and nuts and put the whole through the food chopper. Beat yolk of egg and add water until thick and lemon colored. Beat in sugar. Add chopped nuts and dates and mix thoroughly. Fold in white of egg beaten until stiff and dry. Turn into a buttered and floured baking dish, cover and put into a pan of hot water. Bake 25 minutes with the cover on the dish. Remove cover and bake 25 minutes longer. Serve with cream whipped and sweetened with sugar and flavored with vanilla.

This recipe will serve four persons.

Early American Diplomats

The first representative of the United States to the papal court at Rome was Jacob L. Martin of South Carolina, who died in office, 1808. He was succeeded by John B. Stockton and Rufus King, who served until 1808, when representation at the Vatican was discontinued.

Himself His Own Hobby

A man came so frequently under the surgeon's manipulations at a London hospital that he made a hobby of collecting himself, in glass jars and bottles. Starting with tonsils, he went on with molars and such components, until he had filled a shelf with "spare parts" carefully dated and described.

RAGGED GAME WAS PLAYED BY OUR TEAM

Chillicothe Cardinals Won From C. A. C. Boys by a Score of 28 to 24.

In one of the poorest demonstrations shown by the club team this year the Chillicothe Cardinals won over the C. A. C. boys by a 28 to 24 count.

It is not the intention to discredit in any way the playing of the Chillicothe team. They played a good ball, nevertheless it is a fact that had the club boys played their usual brand of ball Thursday night the boys from down the river would very likely have gone home on the short end of a one sided score. But the club boys had an off night and played a decidedly poor game of basketball. Their passing being very erratic and their goal shooting even worse. Summing it all up in a few words it can be said that the club played a very mediocre game.

Next Thursday night the locals will meet the B. T. U. team of Washington C. H., and fans can rest assured that the club boys will come back strong as they feel the sting of Thursday night's defeat and intend to get revenge even if it is at the expense of a team from another city.

On Saturday night, March 6, will be the basket ball classic Circleville fans have been looking for when the Columbus Kinnear's meet Olson's Swedes on the C. A. C. court.

Score of game:—

NEW METROPOLIS IN OLD NATIONAL PARK

A new town has sprung up and is being crowded against the eastern boundary of Glacier National park within view of the Rocky mountains.

It is Babb, Mont., which in frontier history used to be nothing but a "cafeteria post office" where cowboys and trappers got their mail out of a pouch left hanging upon the side of a log cabin. And they rode in for a radius of 60 miles to pick up their letters from the folks at home in many of the other 47 states of the Union.

Today it is different. With the population suddenly appreciably increased by the acquisition of many crews of men who are working on the construction of the new government Babb to Many Glacier automobile highway, this burg has grown, almost overnight, into a busy little community. The town has a modern school and the cowboy guides of Glacier park and ranches from the surrounding country step inside an up-to-date post office and have their mails handed out to them from rows of pigeonholes by a bob-haired flapper Indian maiden. In fact everything now is modern and up to date in Babb.

Raw Diamonds Not Costly

Diamonds are sold at an average price of \$16 a carat at the mines in South Africa, while purchasers pay from fifteen to twenty times as much for the cut gem in this country. The rarity of fine stones, an expert says, is but one factor of the high price. The great amount of high-grade labor expended to turn the raw stone into a finished gem is the main item.

The cutting process involves the constant risk of spoiling the entire stone. A first step consists in cleaving the specimen with the grain and requires great care and skill. Small ends are recut into brilliants, while the gem itself is faceted on top and bottom.

The next process involves the lapping of the remaining facets, which requires more time than the cutting and causes the stone to lose from one to two-thirds of its weight.—Popular Mechanics.

Radio Proposing

"Well, theirs at least was one marriage that was made in heaven." "How's that?" "He proposed to her by radio."—Louisiana Purple Pel.

Puzzles

Charles—Women are puzzles, aren't they? Thomas—Yes; I've had to give several of them up.—Finance.

32-MILE TUNNEL THROUGH CASCADES

National, State and Railway Money to Aid.

Seattle, Wash.—Survey of a proposed 32-mile automobile and railroad tunnel through the Cascade mountains has been undertaken by the state of Washington, and a committee authorized by the last legislature will report next January on the feasibility of the plan.

The tunnel would be financed with national, state and railway money. The Simpson tunnel through the Alps, for trains only, now is the longest, with a length of 12 1/2 miles. The Moffat tunnel in Colorado being dug under the main range of the continental divide is six miles long. It will be used by both trains and automobiles and also is designed for carrying water from the western to the eastern slope of the Rocky mountains.

Gen. H. M. Chittenden, who died here in 1917, conceived the idea of the 32-mile Cascade project. He was the originator, too, of the idea for the ship canal which now links Lake Union, within Seattle, and Lake Washington, on the city's inland margin, with Puget sound and the Pacific ocean.

The Great Northern railway already is starting an eight-mile tunnel through the Cascades to eliminate grade difficulties, cut operating costs and reduce operating time of trains several hours.

Tomb of Crusaders Who Died in 1236 Is Found

New York.—News was announced here of the discovery in Jerusalem of the intact tomb of Sir Philip d'Aubeny, who went to Jerusalem with the Fifth Crusade and died there in 1236.

Sir Philip d'Aubeny was the tutor of Henry III of England during the monarch's infancy. He left England in 1222 to embark on the Fifth Crusade under the leadership of the German Emperor Frederick II. The Christians had been expelled by Saladin in 1187, but in 1229 Frederick obtained possession of the city by treaty with Sultan Kameel. The city was in the hands of the Crusaders in 1236, when d'Aubeny died and was buried there. It was recaptured by the Moslems eight years later.

This historical fact of the burial of Sir Philip d'Aubeny had been preserved and it was confirmed about eighty years ago, when a slab was discovered in the courtyard of the Church of the Sepulchre with the epitaph of Sir Philip, a Norman shield and the d'Aubeny armorial bearings. It has always been supposed, however, until a few weeks ago that this slab had been removed from the vault of the Crusader and had been placed in the courtyard of the church merely as paving material.

Change Thames' Course, Briton Urges

London.—The contention of Sir Herbert Stephens, a noted member of Britain's legal world, that London has outgrown the Thames and his proposals for changing the course of the historic river have evoked a heated controversy. Sir Herbert cited the damage caused by recent floods to back up his case.

Sentimentalists are replying that the Thames is London, just as the Parthenon is Athens, and that it might as well be said that Rome has outgrown its seven hills as to contend that London has outgrown its river.

Many schemes have been mooted for diverting the course of the Thames where it runs through the metropolis, these proposals including underground channels, a dam above the city to make the river provide water power and an enormous ditch to switch the Thames off to the sea through a course which Londoners would never see without taking long trips into the country.

Tough on Willie

New York.—Willie Kallista, sixteen, and six feet three inches, has been unable to stand the children laughing at him and the teachers being scared of him, so he has been confined indefinitely for truancy.

Cheat on Mushrooms

Worcester, Mass.—Mushrooms from Russia have been found weighted, in order to defraud purchasers, with copper jackets from bullets fired during the war.

Kansas Uses Mexican Quail as Farm Labor

Topeka, Kan.—Kansas has found a way to import farm labor without running afoul of the immigration authorities. The state has just imported 5,000 quail from Mexico to help out the Kansas farmers. They are expected to eat up 125,000 insects during the next summer, and with their brood of young "bobby whites," to destroy at least 250,000,000 weed seeds by autumn. The Mexican quail is slightly smaller than the native bob white of Kansas, but the state game warden is assured that the two will interbreed. He estimates conservatively that the purchase of 5,000 birds will bring Kansas 25,000 young quail next summer.

If a man fails at being successful, he may at least succeed in being a failure.

The way of the transgressor may be hard, but it's generally pretty smooth.

Any man who can make money can make friends, but he can't always keep either.

Lots of people marry money, but the license is always made out under another name.

As a man grows older he spends less time on his pleasures and more on his ailments.

Idleness is emptiness; the tree in which the sap is stagnant remains fruitless.—Hosea Ballou.

Some men are proud of having descended from their ancestors, others boast of having risen above them.

CHICK RAISERS.

Saturday afternoon, March 13, at 1:30 o'clock is the date that Raymond E. Cray, poultry specialist, Ohio State university has given Pickaway county. The raising of chicks seems to take the pleasure out of the poultry business for a good many farmers. This meeting is planned for the help of those who are willing to take good advice.

Anyone who is interested may attend this meeting at the Farm bureau office Saturday afternoon, March 13, at 1:30 o'clock.

J. D. BRAGG, County Agent.

APPOINTED CARRIER.

George A. Leist, son of Dr. and Mrs. G. G. Leist has been appointed a substitute letter carrier by Postmaster George P. Foresman.

FOLLOW THE CROWD

Some firms advertise by mailing circulars. Pickaway County has about 5,000 homes. Circulars mailed to each home costs the sender about \$150.

Money spent in this manner must be added to the overhead expense and the customer pays that expense.

The Circleville Welding Co.'s policy has always been to reduce expense and give the customer the benefit of the saving. Having been in business for the past six years we need no introduction. All the leading industries of Circleville and the many surrounding towns have their work done here. Why not you. We don't do a cheap job merely to meet competition but do you a real 100 percent job at as a reasonable price as possible.

Welding and brazing is our business, nothing else. Bring your next job here and compare the difference in workmanship.

AMUSEMENTS

"The Trouble with Wives" is out at last!

It's a Paramount picture which opened at the Met theater yesterday. Written directly for the screen by Sada Cowan and Howard Higgin and directed by Malcolm St. Clair, who made "Are Parents People?" "The Trouble With Wives" features Florence Vidor, Tom Moore, Esther Ralston and Ford Sterling.

The particular wife in this story is Florence Vidor. She is a perfectly loving and amiable wife who desires nothing other than to be alone with her husband (Moore), owner of an exclusive shoe shop. But always and ever it seems what he plans just cannot be, for either her mother, whom she adores, or Al Hennessy, played by Ford Sterling, her husband's well-meaning college chum who has a penchant for doing the wrong thing at the wrong time, is forever popping up.

One night Al gets to talking about what a terror Moore used to be in the old days. Miss Vidor's faith in him is shaken just a bit and shattered completely the next day when she discovers he had lunch with Dagmar (Esther Ralston), a pretty little Parisian designer.

A few more little false moves on hubby's part and the wife decides to divorce him, but happily before the papers are drawn up Sterling proves to he may be a blunderer at times at other times he is a fast worker. He brings the designer to the fast crumbling house of Hyatt and introduces her to Miss Vidor as his wife.

That means one divorce lawyer is cheated out of a mighty good fee. And they live happily ever after — so we are led to believe at any rate.

There's absolutely nothing the trouble with "The Trouble With Wives." It's there seven different ways.

Lucy Beaumont, as Miss Vidor's mother, a divorcee; Edward Kennedy, Etta Lee and William Courtright complete the cast.

x x x x x x x x
x HARTMAN THEATER. x
x x x x x x x x

Ziegfeld's most perfect musical comedy, "Louie, the 14th," will be the attraction at the Hartman theater, Columbus, Ohio, commencing next Monday night, March 1. For nine months the famous comedian, Leon Errol, and a mighty cast of singers, dancers and comedians have been delighting 'New York' in this glorified hit, and their appearance in Columbus will be one of the notable events of the season. "Louie, the 14th," was written by Arthur Wimperis and Sigmund Romberg, the most popular composer of lovely music in the world. Riotous comedy, marvelous scenic and spectacular effects, gorgeous settings and costumes are included in the wonders of "Louie, the 14th" as well as a complete pageant and the "Homeland male chorus. Supporting Mr. Errol is a brilliant group of principals. Doris Patston was brought here especially from England to create the role of the Peach girl heroine of "Louie, the 14th." Despite her youth she had already achieved fame as one of the stars of the London Revue, "The Punch Bowl." As Colette she is the toast of the officers and their men and the center of attraction in the magnificent banquet scene. Especially interesting also is the appearance of Ethel Shutta and Pauline Mason. Miss Shutta is a gifted dancer and riotous comedienne, while Miss Mason captivates with her speed compelling "Pep" number. Included also in the superb cast are Evelyn Law, highest kicker in the world; Edna Covey, ballerine comique; Florentine Cosnova, talented dancer; Simone do Bouvier and Catherine Calhoun Doucet; Glen Dale, the tenor; Cosmo Bellew; Theodore Babcock, Alfred James. Then, too, are the Cosmopolitan Girls and the most beautiful chorus that Mr. Ziegfeld has ever assembled.

"Louie the 14th," is Ziegfeld's supreme achievement. It is better than "Sally" and funnier than "Kid Boots." —Matinees Wednesday and Saturday. Mail orders now.

ATTENDED INSPECTION.
William B. Cady, John S. Morris, Paul Hinton and Lawrence Curl motored to Chillicothe Thursday evening and attended the annual inspection of the Masonic lodge.

BE WISE, LET BEE BE
E. R. Root, the man who knows more about bees than they know about themselves, gave some sound advice last week when he talked before the Columbus chamber of commerce and released 9,999 bees in the dining room.
Mr. Root said:
"Don't sit on a bee.
"Don't let a bee sit on you.
"Don't slap a strange bee.
"Don't slap a bee, on matter how long you have known her.
"Calling the bee 'honey,' won't make you immune from stings.
"Get their confidence or they'll get you."

All of which is sensible, but we have no intention of trying to win the confidence of any bee, no matter who he or she may be.

London's Zero Hour
London's most tranquil moment in the week is at 3 o'clock on a Sunday morning. Any other morning hundreds of newspaper trucks are dashing about, market carts are hurrying through the streets and the city is otherwise very busy.

GIDDY GIRL.
Mrs. Sarah E. Logan, 81, New Athens, Ohio, has started on a 10,000-mile trip to see the most interesting spots of the world so she will "have something to talk about when she grows old," as she puts it.
Nine countries in Africa, Asia and Europe will be visited by the aged Ohio matron.
"To walk thru the streets of Jerusalem will be the thrill of my life," she says.

To Clean Billiard Balls
Ivory billiard balls can be cleaned with a soft cloth, moistened with tepid water. Where the balls are so dirty that this is not effective, a small quantity of alcohol can be used satisfactorily by applying same to a cloth and rubbing the balls until they are clean.

GOING OUT OF BUSINESS.
I will sell my entire stock of groceries away down low. Come in and see me.

Coolie Labor Not Cheap

A Chinese coolie who works for 10 cents a day is paid, according to standards of this country, 20 times what he is worth because he can only move one ton a mile in a day. American railroads move one ton one mile at a cost of only 1/2 cent. The great contrast illustrates the difference between man strength and mechanical power.

REOPEN TUNNEL USED BY GRANT'S TROOPS**Shaft to Be Memorial to "Battle of the Crater."**

Petersburg, Va.—One of the greatest pieces of battlefield engineering of the Civil war has been brought to light with the reopening of the main tunnel by which the famous mine under the Confederate works near Petersburg was placed. Explosion of the mine caused the "Battle of the Crater" to go down in history as the most tragic of that war.

Much of its timber still sound, the tunnel is declared to be a model of shoring. It is planned to make of it a shrine to American ingenuity and resourcefulness.

Winding its narrow way 30 feet underground, the tunnel extends a distance of 510 feet from behind what was General Grant's front line to the crater itself. Several parallel and perpendicular shorter tunnels connect with it. Finally the passageway enters a large underground room, believed to have been a Confederate bomb-proof dugout.

Dug in Thirty Days.

It was this gallery, as it was called by the Pennsylvania miners of Colonel Pleasant's regiment who dug it in 30 days, that afforded the means of laying the mines which were intended to clear the obstruction to Grant's march on Richmond. In the success of Colonel Pleasant's plan, which at first Grant described as "claptrap and nonsense," the North had placed its faith for an immediate ending of the war.

Federal troops had been drilled for a month and Grant had concentrated 65,000 troops in the adjacent valley for the charge that was to follow the explosion at 3:30 a. m. of July 30, 1864, which wrecked Elliott's salient and cleared the way to the capital of the Confederacy.

Many sections of the passageway have now been found to be in place just as originally built. Here and there were discovered evidences of the men of the Forty-eighth Pennsylvania infantry who dug them. Whether the parallel galleries were dug by the men under General Lee in an effort to locate the Federals working underground or by the same men who dug their way 510 feet to the crater, remains undetermined.

300 Were Killed.

Through Colonel Pleasant's tunnel 4,000 pounds of explosives were placed under the Confederate works. While Grant's army waited the fuse was lit. After an hour's wait it was found necessary to enter the tunnel and re-light it half way up. A few minutes later came the explosion which sent 300 Confederates to death, caused confusion and delay to the waiting Federal troops, and paved the way for the rush of General Meade's men to their destruction.

A crossfire from Confederate batteries, placed advantageously after it had been learned that their position was being undermined, met the Federals as they charged through the opening made by the explosion. It was two hours before Meade penetrated the thin gray line.

By that time Mahone had come up with his Petersburg brigade, and the celebrated "Crater Charge" drove the enemy beyond the crater, leaving behind more than 5,000 Union dead. The hope of General Grant for the immediate capture of Richmond was wrecked.

Offer College Courses to Japanese Students

Philadelphia.—Under plans launched by the American Friends service committee a selected group of Japanese students will be invited to come to the United States next autumn to study in colleges and universities as the guests of Americans.

The Friends service committee said that a nation-wide appeal would be made for co-operation in carrying out their plans. A number of colleges already have volunteered.

"This is the first concrete proposal," said a statement, "to give general expression to the widespread desire to improve our relations with the people of Japan."

"A Friends service committee, composed of Japanese Quakers, has been formed in Tokyo. This committee will be charged with the selection of the students. The choice will be based entirely on individual fitness and aims and the students will not represent any official or other special interests. "On their arrival in this country they will be placed in volunteer colleges. This will insure the full benefit of the plan to Americans as well as to the Japanese."

Rockefeller's Pity Leads to Return of Boy's Health

Ormond Beach, Fla.—Through the kindly interest of John D. Rockefeller seven-year-old J. C. Holland, Jr., son of Mr. and Mrs. Z. C. Holland of Bunell, Fla., will be restored to perfect health after being an invalid for five years. His attention was attracted to the boy who was two years old. Several physicians had diagnosed the case as the result of infantile paralysis, but Rockefeller's physician found merely a dislocated hip.

Cheats Blizzard

Amarillo, Texas.—Ima, seven-year-old daughter of Mr. and Mrs. B. T. Dudley, rode for eight hours to keep from freezing to death. She was found almost lifeless, hanging from the saddle of her pony.

A Change From Home

"I wonder why three-fourths of the stenographers in business offices are women?"

"I suppose it's because men like to feel that there is at least one class of women they can dictate to."—Boston Transcript.

Bird Well Nourished
They do these things better in Canada. An employee in Alberta was presented by his employers with a turkey at Christmas. While it was being prepared for the festive board, three gold nuggets, valued at \$10, were found in its crop. As might be expected, the feeding place of that bird is being kept a profound secret.—Christian Science Monitor.

New Scientific Light on Plant Intelligence
An intoxicated carrot has convinced Sir Jagadis Chandra Bose, the British plant psychologist, that plants have intelligence.
Sir Jagadis is more than ever convinced that trees fall in love just as human beings do, as a result of his latest experiments. The intelligence of plants, he says, approaches the instinctive intelligence of the lower forms of animals. He bases his conclusions on observation of the injection of alcohol, chloroform, carbonic acid and other chemicals into living plants. He also has looked into arboreal amours on the spot.
Trees apparently select other trees nearby as objects of affection, Sir Jagadis said in an interview. Trees thus smitten send out tendrils to enfold the objects of their affection.
By injections, Sir Jagadis said he was able to make a carrot drunk or to make it lose consciousness. Plant fibers really are muscles, he contends.

POULTRY FARM FOR SALE.
Three acre tract with dandy new 5 room bungalow, garage and poultry house, electric lights and gas, good walks. Well located in city limits. For further particulars and information, call or see

TRY US FOR A WANT AD

Turning Corn Into Dairy Feeds Urged
Surplus Crop Fed to Cows Will Relieve Farmer.

Farmers who are worrying about the surplus of corn and the relatively low price of their product just now can secure as much as \$1.25 a bushel by turning this corn into dairy feeds and market the dairy products.
"By marketing their surplus corn in the form of dairy products," says M. D. Munn, president of the National Dairy council, who has been conferring with leaders in the dairy industry and bankers on the question, "this corn will return the farmer about \$1.25 a bushel based on the average price of dairy products in 1925. By so doing we will not upset the balance of grain produced by having corn consumed in the form of corn meal mush, bread or muffins in place of a bushel of wheat. At best we can only eat a given amount of bread and cereals, and an increased consumption of one form of bread necessarily decreases the consumption of another."
While corn meal mush and milk is palatable and healthful and should be freely eaten, it does not constitute an effective way of consuming the surplus corn. Milk and its products are the most healthful foods we have, and by consuming more of these people will have better health, be more efficient and at the same time directly assist in relieving the farmer of his burden of surplus corn providing they will feed it to the dairy cows in a properly balanced ration.
"If the public is really willing and anxious to help in relieving the farmer of this corn surplus burden," says Mr. Munn, "he can best assist by increasing the consumption of milk, butter, ice cream and cheese and at the same time be more healthful and efficient. The properly balanced ration for the dairy cow includes corn meal, corn gluten feed, together with ground oats, barley, bran, cottonseed meal, beet pulp, etc. This corn gluten feed is a by-product from the manufacture of starch and sugar from corn. Therefore the consuming public can further assist by using more corn sugar and less imported cane sugar."

Raising Turkeys Helps Destroy Grasshoppers

Development of Wyoming as a turkey-producing section has been urged by extension workers of the state and the United States Department of Agriculture for three reasons: The climate induces fattening in time to place the stock early on the holiday markets; live stock growers need a supplemental cash crop; and where there are sufficient turkeys, grasshoppers cease to be a liability and become an asset, for these birds have a high regard for the grasshopper, and large appetites.

In Park county alone Thanksgiving shipment totaled over 75,000 pounds of turkey after four years' emphasis on turkey production. Big Horn, Fremont, Goshen, and other counties have made similar progress.

Increased interest in good stock and good management of the flock was fostered by county agents and other extension workers, with the result that in one year the average weight of the turkeys shipped to market was two pounds heavier than those of the preceding season, and this year's crop is said to show even greater advance.

Corn Yield Problem Is One of Soil Fertility

Corn growers face a problem of raising general soil fertility if they are to redeem production from the decline which depletion of organic matter in the soil has brought about, according to Prof. R. I. Throckmorton, head of the department of agronomy at the Kansas State Agricultural college.

General fertility, Professor Throckmorton pointed out, can be increased by growing corn in rotation with such crops as alfalfa, clover, and soy beans; by returning all manure and crop residue to the soil; and by good tillage methods.

Alfalfa Rated High

Alfalfa is a valuable dairy feed. Many farmers who have alfalfa and their own corn and oats are only paying about \$35 a ton for grain mixtures this winter. Alfalfa not only makes it possible to have a cheap grain mixture but helps cows give more milk than any other roughage will. If alfalfa is not already grown on the farm, get in touch with the county agent and have your soil tested for lime requirements; also obtain sources of good seed and inoculation.

FARM FACTS

Phosphated manure is much more valuable than untreated manure.
Painting the lowest cellar stairstep white reduces possibility of accident from missteps.
The most successful farmer is the one who incorporates into his mental capital lessons from experience of other farmers and investigators.

When it is inconvenient and often impossible for the farm family to make frequent visits to local markets during the winter months, the vegetables needed should come from the supply furnished by the farm garden.

Age of Engineering
Experiments in California to ascertain if the cheaper thin-walled arch dam is better than the more expensive gravity structure indicate that the engineering descendants of the man who wanted but a lever and a place on which to stand to move the world now only ask for an opportunity to prove that they can heat, light and transport the world by water power.

Evolution
Man is a living waterfall; so is a nation—preserving its identity, appearance, but constantly changing and losing its individual particles.—Draper.

The Pyramids

The "Pyramid Field" lies in the eastern desert near Cairo, Egypt. There are altogether about seventy pyramids, nineteen of which have been identified. The best known are the three pyramids of Giza (Gizeh), that of Unas, the brick pyramid of Dahshur, and that of Sneferu at Medium. They are said to be the tombs of royal and august personages.

BIRTHS

To Mr. and Mrs. Harry Speakman, of Ashville, Friday, February 19, 1926, a daughter, Beatrice Ann.

To Mr. and Mrs. Charles Hixon, of South Washington street, Thursday, February 25, 1926, a son.

To Mr. and Mrs. George Fissell, of Kingston, Friday, February 19, 1926, a daughter.

CANAL BOATS WERE VIEWED WITH WONDER

Created as Much Interest as the Twentieth Century Express Train of our Day.

The first canal boat operated on the Ohio canals moved over the stretch lying between Akron and Cleveland. This was the most expensive piece of the Ohio canals to be constructed—the 32 miles having 41 locks and three considerable aqueducts; yet it was the first to be finished. The water-shed across Ohio approaches very close to the lake shore at this point, and by the time the canal reaches Akron it has well nigh climbed to the crest dividing the waters that flow into the Mississippi basin from those which run into the St. Lawrence basin.

It was on July 4, 1827, that this first Ohio canal boat was navigated from Akron to Cleveland. That was exactly two years from the day ground was first broken in the construction of the canals. The boat carried a large party of people, mostly officials, and crowds gathered from all parts of the surrounding country to see the boat pass. Governor Trimble thought the matter important enough to treat of it in his annual message to the legislature.

In November of that same year a portion of the southern end of the Miami & Erie canal was completed and three canal boats were navigated upon it from Cincinnati to Middletown on November 28. They were crowded with people anxious to experience the sensation of traveling by this new method. It was recorded that the boats made the remarkable speed of three miles an hour, including detentions at the locks and other delays attendant upon the operation of the canal. The inauguration of the Twentieth Century Express train in our own time hardly excited more interest than the beginning of the operation of canal boats in Ohio.—Columbus Dispatch.

SOCIAL CALENDAR

A surprise party was tendered Mrs. J. Justus at her home, 122 East Eleventh avenue, Columbus, Sunday, February 21, by her daughter, Mrs. Frank Jenkins, in honor of her 17th birthday anniversary. Relatives assembled in the absence of the honor guest who had been beguiled into paying a little visit to her daughter, Mrs. John Howard, of East Eleventh avenue. After a lunch was served the time was spent in music and visiting. The guests departed late in the day deciding to come back when they would find her "at home." Those present were Mrs. Frances Funk and son, George, Mrs. J. C. Lohr and family, Mr. and Mrs. Joe Morris, of London; Mrs. Mary Justus, Mr. and Mrs. John Coakley, of Circleville; Mr. and Mrs. Harl Dillsaver, of Amanda; Mr. and Mrs. John Neff and daughter, of Stoutsville; Mr. and Mrs. Lee Conrod and daughter, Mr. and Mrs. Merrill Markwood, of Lancaster; Mr. and Mrs. Charles Stoer and family of Williamsport; Mr. and Mrs. B. F. See, Mrs. Theda Asher, Mr. Rae Haller, Mr. and Mrs. John Howard, Mr. and Mrs. F. C. Jenkins, of Columbus.

PERSONALS

Mrs. Albert Morris spent the day in Columbus.

Fred Fissell was a business visitor in Columbus today.

Mr. and Mrs. Arlo Waliser are visiting friends in Columbus.

Mr. and Mrs. Harrison Zellmer spent the day in Columbus.

Judge E. A. Brown and I. F. Snyder were in Ashville today on legal business.

Mrs. Charles Hall, who was called to Cincinnati by the illness of her sister, Miss Lida Kay, has returned to her home on Watt street.

Marion—A verdict of guilty was returned 27 minutes after the jury took the case, when Harry F. Duncan, Zanesville, was found guilty of robbing two bank messengers of the Columbus, Delaware and Marion Electric company, January 11. The holdup took place in front of the Marion police headquarters.

Duncan, on the witness stand, admitted he was a run runner. He implicated James S. Madden, Columbus, in the robbery. Madden will be tried March 1. Duncan will be sentenced after Madden's trial.

Two-Piece Sports Dress of Green Brocade Silk

A charming two-piece sports dress is made of pale green brocade silk collar and sleeves, tiny tailored pockets being trimmed with heavy white crepe de chine. The sports hat shown on the model is of a darker shade of green milan straw, gobs shaped, with brown grosgrain ribbon, and brim bound with same.

Winsome Patterns in New Silks and Crepes

Crepes and chiffons in plain colors and in a great variety of new patterns are used lavishly for afternoon and evening dress from both the French and the American creators. The advanced styles in these materials received from the other side and those shown by American manufacturers earlier in the winter are refined in design. The greater number are woven in pastel shades. With the exception of some striking patterns of cubist character and some that are geometric in feeling, the new fabrics are in floral, Watteau scrolls and "confetti figures," with some distinguished designs inspired, as were the Ferronier silks of last spring, by architectural motifs. This year's prints are exceedingly graceful, with much delicacy of detail and beauty of color. The flower-printed chiffons and voiles are poems in color, with the wistaria roses, orchids and daffodils on backgrounds of fainter tints. Passion flowers, fruit and conventionalized clusters of grapes, vines and leaves are some of the patterns.

Include Slender Lines in Styles for Spring

Sports fabrics express the mannish inclination through imported novelty tweeds, in which subdued colorings and neat, definite designs, achieve that enviable air of smartness with restraint. This type is a godsend to the woman who admires brighter shades now in vogue, but for one reason or another does not wish to wear them.

Such substantial tweeds, in company with jersey, novelty plaids, flannels and bordered woollens are active principally in coat or suit types. In these, despite the presence of capelet theme and shoulder flare, there is a clear survival of straight lines. Even the types noted seek a slim effect, while topcoats, either full or three-quarters length, frequently show a straight silhouette.

This is partly because it is after all the most flattering to women with pounds to hide, and partly because fabrics are so all important just now that they must be set off by the simplest of styling.

Buckle Is Important as Trimming Detail

The buckle contributes one of the most important trimming details of the season. It is quite a glittering ornament when it is of rhinestones and is used to adorn one of the new felt hats or one of satin. The buckle of felt in self or contrasting color is another trimming means frequently employed for smart little felt hats.

Somewhat different is the use of gold kid buckles to finish the gold belt on brown crepe dress. Another buckle, somewhat smaller, finishes the gold kid band which lends the illusion of a two-piece style to this model. A third buckle, smaller still than either of the other two, adorns the very edge of the skirt.

For Evening Gowns

Drecol makes much use of the close-fitting bodice and swathed draperies about the hips this season. Evening gowns in the new shades of rose and red, with deep fox bands and Persian jeweled girdle, strike an oriental note. There is more workmanship in the cutting and fitting of the gorgeous materials than there is in trimming, to give an effect of elaborateness to what is in reality very simple dressmaking. This expedient is apparent in certain of the less famous houses.

H. B. COLWELL

Successor to COLWELL & KATZ

WHAT IS TO BE DONE?

"A very difficult question," the President calls the traffic casualties of the time. The figures that he cites—24,000 persons killed in a year upon the streets and highways of the country, and probably more than 500,000 injured. This means that over a period of the same length as our participation in the world war Americans are losing three-fourths as many lives on streets and roads as they lost to German bullets, and running up in addition a non-fatal casualty list thrice as great as they did abroad.

"The president has asked all the governors to appoint delegates to a national safety convention to assemble in March. While we know of no formula to meet the situation he has outlined the conference may write history by focusing public attention on the national aspects of a problem made up of a multitude of incidents at street corners and cross roads. Many communities are at work seeking and applying remedies.

The figures set forth in this article certainly ought to be a very convincing argument for

"If the American farmer slowly sings into peasantry thru national unconcern, if the rural church sinks and goes down with him, it will be due, in my estimation, to the sickness of the American church; it will not be a case of national decline due to the temporary eclipse of religion. It will be at base a case of bad economics or bad politics. The aristocratic superiorities of a dozen righteous cults—will have brought on the doom."—Professor C. J. Galpin, U. S. Dept. of Agriculture.

C-O-D Is Cod

Little Sara happened over to her married sister's home just after the coal man had delivered some coal. She noticed the coal bill on the table with these letters at the bottom: C. O. D. and said: "Well, the same man must have delivered your coal that delivered ours, because his name was Cod, too."—Indianapolis News.

LOANS UP TO \$500.00.

Adding in the carrying charge as part of the cost when you buy a thing "on time" is good practice in one sense, but doubtful in another. It enables a great many people to buy things that otherwise they could never afford to own. It also increases business production and in that manner improves the general prosperity of the country. But from the standpoint of the individual buyer, it makes a doubtful bargain, because all the "ifs" are in favor of the seller. If you pay too fast, you pay too much interest. If you pay too slowly, all you have previously paid may be sacrificed and you risk losing what you bought besides. Under the popular City Loan Plan you can borrow the cash to buy what you want, and pay the carrying charge—not in advance, but month to month just as you go. C. G. CHALFIN, Manager. THE CITY LOAN & SAVINGS COMPANY 113 North Court St.

DIRECTOR M'DONALD BARS THE WOMEN

CANNOT AID DRY SLEUTHS RESULT OF PROPST PROBE

Star Witness In Case, Mrs. Ruth Farrell and Her Companion, are Still Missing—Inspector Charges Testimony Was 'Rehearsed' Beforehand by Propst.

No more women will be employed by the state prohibition department in any other capacity than stenography or similar clerical work.

This was announced Thursday by State Prohibition Commissioner B. F. McDonald, after Governor Donahey had concluded Thursday's sessions of his investigation into the official conduct of Deputy Prohibition Commissioner Propst and others of the dry law enforcement office.

Two girls now are employed as stenographers in the department.

Mr. McDonald did not elaborate on his announcement to say why he had reached this decision.

Thursday's session of the probe went on without Mrs. Ruth Farrell and her companion, Goldie Hallam, who were to have been at Wednesday's hearing, but who "showed up missing." Columbus police are continuing their search for them.

Charges that evidence of witnesses who testified Wednesday was "rehearsed" beforehand by Deputy Prohibition Commissioner S. A. Propst were made Thursday by H. C. Gibson an inspector of the department.

Gibson also charged that Mrs. Ruth Farrell, the woman used by Propst in the attempted entrapment of Marshal Harry E. Nutt of Westerville, had been promised by the deputy commissioner that she would be protected fully in the hearings providing certain evidence in her possession was not made public.

Evidence supporting these charges, Gibson said, had been turned over by him to Mr. McDonald and Governor Donahey Wednesday in letter form. In his letter Gibson referred to the Westerville affair as "contemptible and brought disgrace to the prohibition department."

Questioned following the publication of Gibson's statement as to what Gibson's fate would be, Prohibition Commissioner McDonald said he did not know whether Gibson would be discharged, but said Gibson had not been doing any work and that complaints as to his personal conduct had been received.

"Gibson will be called in for questioning," McDonald said. "I have been receiving complaints concerning his personal conduct. I plan to quiz him about these reports. Gibson has not been doing any work lately. He came to the office Thursday, inquired if anyone had called for him, then left. He had not been back since."

Replying to this, Gibson said he considered it "strange" that McDonald should "take such a sudden notion to investigate me."

Gibson further says that Mr. McDonald had praised his ability in presenting cases to mayors and justices and said he was to be used in that capacity in the future.

Gibson said he hoped his report would be considered favorably by Governor Donahey and Mr. McDonald. "Mr. McDonald should know that more than one-half dozen men have been idle during the entire week," Gibson said. He received no assignment on Tuesday or Wednesday, he said, and spent Thursday on juvenile work. Friday he planned to be a witness in the Stephenson case and will report for assignment.

"I am not making a personal fight on Mr. Propst, nor am I making a fight for Harry Nutt. I am simply denouncing the methods employed by Propst in the Nutt case, fully cogniz-

ant that it probably will cost me my job."

Prohibition officials Thursday identified Carl Sultzer, state dry agent, as "the man on the Table" referred to by two women who visited the officers several weeks ago. Sulzer, explaining his posture, said he was holding waste baskets and other office equipment while lying across one of the desks to give the janitor greater freedom in sweeping.

CHURCH DESIGNER

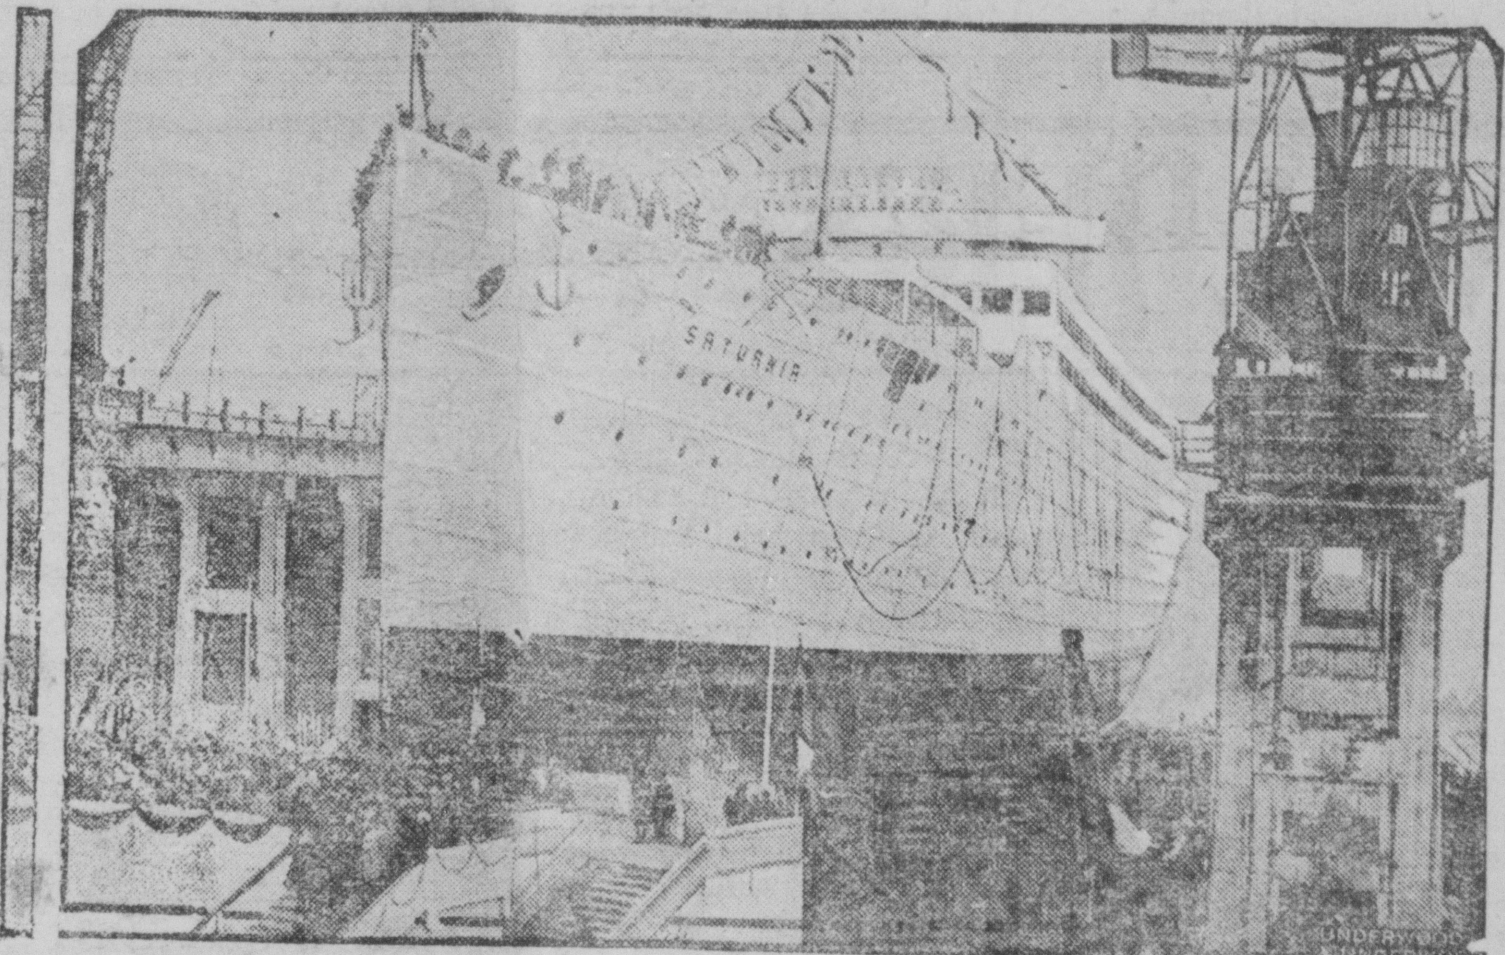

Ralph Adams Cram bids fair to become the "Christopher Wren of America." This Boston architect is responsible for much of the Cathedral of St. John the Divine and now word comes that he is to design the "Rockefeller church," to be erected in New York for the pastorate of Doctor Fosdick. So eventually on Morningside Heights there will rise a new monument to the artistic genius of Ralph A. Cram.

Failed to Find Gold

Sir Martin Frobisher, the noted English navigator, was sent out on expeditions in search of gold in the northwest of North America in 1577 and 1578, but on both occasions brought back worthless ore.

Biggest Motor Ship in World Launched in Italy

Scene at the launching of the Saturnia, the largest motor ship yet built, at Montfalcone, Italy. On the platform in the foreground are Princess Giovanna, who sponsored the ship, and the government dignitaries. The ship is run by Diesel engines. It is 650 feet long, has an 80-foot beam, is of 35,000 tons displacement, and can carry 26,500 tons of cargo. The passenger-carrying capacity is 2,280, exclusive of the crew of 500. It can attain a speed of 21 knots.

HAPPENINGS IN OUR STATE

Taken Direct From Wires
By Correspondents of the
United States Press
Association.

Dayton—Constable Earl Severs and J. W. Sidwell, of Van Buren township, were arrested Thursday night. Marshal Snyder of Osborn, on a warrant charging them with shooting with intent to wound Clarence Mullin of Old Osborn. The warrant also implicated State Prohibition Inspector J. W. Watts, but he was out of town. He will be arrested on his return.

According to information the officers were engaged in a liquor raid February 2, near the Mullin home and noticed Mullin running and fired 13 shots at him, striking him twice in the arm.

Bowling Green—Two downtown buildings were destroyed by fire of undetermined origin here Friday with an estimated loss of \$15,000. The buildings destroyed were occupied by a meat market and a dry cleaning company.

Columbus—Edward Ridgeway was to be arraigned today on charges of hitting his wife in the eye. According to Ridgeway's story Mrs. Ridgeway became abusive when he refused to go to the show and broke two tubes in his radio set, whereupon he hit her.

Elyria—A quarrel in a New York Central railway construction camp near here today culminated in the death of Felix Carvello, 30, who was felled with a shovel in the hands of James Harris, 28, according to police. Both men were employed in the camp.

Fellow workers who witnessed the quarrel, said Harris made no attempt to escape after striking Carvello. Both men were comparative strangers in the camp, having been employed only recently. Cause of the altercation not known. Harris will be arraigned and charged with murder.

Youngstown—Attempting to escape while officers were raiding his home, cost the life of James Meadows, of Youngstown today.

As the officers swooped down upon his home, Meadows made a break for liberty. Patrolman Bixler shot him thru the head with a riot gun.

Eleven men and women, said to be attending a party in Meadow's home, were taken into custody.

J. M. DUNLAP PASSED AWAY IN FLORIDA

An Injury Sustained When
Young Caused Death—
Burial in Forest Cemetery.

James M. Dunlap died Thursday evening at 7 o'clock in the city hospital at Daytona Beach, Florida.

His death was due to a wound in his leg. Hemorrhages and loss of blood undermined his health and anemia developed. His leg was injured when he was a boy 14 years of age, following an accident by falling off a rail fence on a farm owned by his father near Chillicothe.

James Madison Dunlap was born in Ross county July 18, 1848, and was a son of John and Mary Minear Dunlap. His mother died three years ago at the age of 106.

He married Lucetta Stein, August 15, 1875, who died February 2, 1917. Two sons and a daughter survive. They are David S. Dunlap of this city who was at the bedside of his father when he passed away; Harry J. Dunlap, of near Williamsport and Mrs. Gertrude Saunders, of Millersburg, Kentucky. His grandchildren surviving are Miss Elizabeth L. Dunlap, of this city; Margaret and William Dunlap, of Williamsport, Dunlap Saunders and Mary Ellen Saunders, of Millersburg, Kentucky.

Of his immediate family, three brothers are living. They are Samuel W. Dunlap, of this city; Nelson Dunlap, of Kingston and Charles Dunlap, of Chillicothe.

Mr. Dunlap left this city 23 years ago and had been located at Daytona Beach, ever since. He was interested in real estate and had, thru investments, made considerable money.

His remains will leave his southern home this evening and they will arrive Saturday evening and will be taken to the home of his son, David, on West Franklin street, where the funeral services will be held Monday afternoon at 2 o'clock. Rev. E. D. Paulin, formerly of this city, will officiate. Interment will be in Forest cemetery.

Please omit flowers.

RIVER RISING.

The Scioto river rose six feet during the night, Dr. Clarke, local weather observer, received a telegram this morning from Columbus, that the river would continue to rise and to expect a further rise of four feet.

A GOOD SALE.

Hulse Hays' public sale Thursday, February 24, was attended by a great crowd of people and the property brought good prices.

Less than 80 head of hogs sold for nearly \$3,000, sheep sold at \$20 a head horses brought \$175 and cow, \$75.

The total amount of the sale was \$7,053.55.

W. O. Bumgarner and Earl Swepston were the auctioneers and Wayne A. Hoover and G. A. Schleyer were clerks.

The ladies of Union chapel served lunch and cleared \$60.

MRS. R. W. IMBRIE

Mrs. Robert Whitney Imbrie, widow of the murdered U. S. vice consul to Persia, who testified before the house foreign affairs committee, telling the facts of the slaying of her husband July 18 by a mob in Teheran. Mrs. Imbrie has received an indemnity of \$80,000 from the Persian government and the United States has been paid the expenses of sending a man-of-war to bring the body of the slain consul home.

HIGH WINDS.

Fences were blown down and houses and sheds were unroofed in Thursday's windstorm. The Citizen and Bell telephone lines in the county were badly crippled. On the Adelphi pike near the Kingston pike crossing twenty poles of the Citizens' company were blown down and on the Columbus pike a number of poles were blown across the road.

Phosphorus in Foods

Foods containing a high percentage of phosphorus are buttermilk, codfish, celery, spinach, lettuce, cauliflower, cottage cheese and asparagus.

REED CHARGED GAVEL USED TOO FREELY

Vice President's Action Defended by Democratic Leader, Senator Robinson.

Blunt notice was served upon Vice President Dawes by Senator James A. Reed, Missouri, Democrat, that the gavel would "not be used in this senate to cut off the rights of senators."

Standing in the front row on the Republican side of the chamber, Senator Reed shook his finger at the vice president as he delivered his ultimatum. Mr. Dawes, who was presiding made no reply, but he moved forward in his chair as the senator began to speak.

Adverting to a situation which arose Thursday, Senator Reed contended that the vice president had "gaveled" thru a motion while Senator Cole Blease, South Carolina, Democrat, was seeking to appeal from a decision of the Chair ruling out of order a motion he had made that the senate not concur in the conference report on the tax bill.

Giving his version of this event, Senator Joseph Robinson, of Arkansas, Democrat leader, said the vice president was right in his ruling and that there was not "the slightest reason for denouncing the chair for the use of the gavel Thursday."

Sensor Blease explained that after his motion was ruled out of order he announced that he would appeal; that the vice president evidently thought he had appealed and then put the motion, after which he declared the chair sustained.

"As a matter of fact, the chair did not give me time to appeal," Senator Blease said.

The flare-up came at the tailend of the season and reminded senators of the stirring day nearly a year ago when senator Reed set out to "spank" Mr. Dawes for his lecture to the senate about its rules in his inaugural address and his abrupt thrusting aside of time honored customs governing the swearing in of senators.

At that time, Senator Reed apparently was ready to deliver a stinging rebuke, but there was a recess of the senate and conferences conducted during the interval resulted in adoption by the senate of a resolution of mild rebuke.

As he addressed the chair the Missouri senator showed evidence of deep feeling. After he had delivered his brief, but emphatic warning he announced that this was all he cared to say on the subject "at this time."

NEWS ABOUT COURT HOUSE

General Happenings Taken
From the Records of the
Various County
Offices.

Co-Administrator Appointed.

In the matter of the Henry Phillips estate in which Fairfield county claimed right of administration, and which was carried up to the court of appeals, Judge Adkins has agreed to appoint a co-administrator from Fairfield county. C. M. Wagner who represents Fairfield county heir to the estate.

Wind Power Impractical

Electrical energy has been obtained from wind-driven turbines in windmills, but the procuring of power in this way is not done commercially to any extent. The difficulties to be overcome are the variable output and variable direction of wind and the comparatively low concentration of available power.

"A miss is as good as a mile"—the spinster thinks one is better than a knot.—Boston Transcript.

OPENING GUN

Of the 1926 Enrollment Campaign for Citizens' Military Training Camps To Be Broadcast Monday Night.

Columbus Feb. 25.—The opening gun of the 1926 enrollment campaign for the Citizens' Military Training Camps will be broadcast over radio station WAIU, Columbus, Monday night at 8 o'clock, when Lt. Colonel Francis W. Glover, officer in charge of the C. M. T. C. in Ohio, Indiana, Kentucky and West Virginia, will tell how young men 17 to 24 years of age may take advantage of the camps.

Citizens' Military Training Camps are to be held this year at both Camp Knox, Ky., and Fort Benjamin Harrison, Ind., and a third camp will be established for the first time at Fort Thomas, Ky. Fort Thomas and Fort Harrison will be operated from July 15 to August 13, and the training period at Camp Knox will be from July 7 to August 5.

Colonel Glover hopes to announce Monday night the quotas for the four states of the corps area, which have not yet been definitely fixed. He indicates, however, that there will not be a proportionate increase in quotas for the camps as in years past. It is expected that approximately the same number of men will be accommodated as last year when 6,050 were enrolled.

Conducted by the government each summer since their origin in 1921, Citizens' Military Training Camps have become an institution with American youth. With all expenses paid, including even transportation, the camps have furnished many a youth a healthful and enjoyable vacation who would otherwise have been forced to stay at home.

C. M. T. C. Camps, however, are not designed necessarily for the poorer classes. In previous years their programs, including as it does, camping, hiking, shooting, drilling and every phase of sport, has attracted youths of all stations from the President's son on down. Their object is to increase the mental, moral and physical fitness of present day youth by giving them each year thirty days under the most favorable conditions of outdoor life.

Radio listeners Monday night will also be afforded an opportunity to hear the Fort Hayes 24 piece military band, one of the foremost musical aggregations in the Army, which will give a concert under the direction of Staff Sergeant Andrew Wyatt, immediately following the Colonel's talk.

DO NOT WANT LOCAL BUS LINE

Columbus, Feb. 24.—(UP.)—The mayor, council members and leading citizens of Grand Rapids, Woods county, today in a lengthy telegram to the State Utilities Commission, protested against granting a franchise for a local bus line from Napoleon to Grand Rapids.

The consensus of opinion among the signers of the telegram was that another contemplated bus line, running from Fort Wayne, Ind., to Toledo, and passing through Grand Rapids, will give far better service than a local line.

Benton Manard, mayor, six members of the council and 17 leading citizens, signed the telegram.

WASHINGTON SPECIALS

Washington, Feb. 25.—(UP.)—A five-year aircraft building program for the army, similar to that of the navy, will be presented to Congress in a war department bill next week. Though department officials would not discuss figures involved, it was understood the aim is to double the present standing strength of 700 effective planes. The navy program is for 1,000 planes. The total cost of the army plan will be under the \$100,000,000 of the navy program, it is thought.

Acting Secretary of Labor White announced today that immigration authorities would not take further action in the exclusion of Vera, Countess of Cathcart until the English noblewoman's habeas corpus proceedings are disposed of in the U. S. district court of New York next week. "The policy of the department is not to grant a hearing to a person seeking admittance while the case is in court" White said. "If the court admits the countess into the country then the entire matter is closed. 'Should the court reject the countess,' White said, 'then she can re-appeal her case and the department will consider whether it will hear the case over again.'"

Assistant Secretary of the Treasury Andrews will recommend to congress this week that legislation be passed making jail sentences compulsory for convicted moonshiners, bootleggers and others trafficking in liquor. Treasury officials today said the administration's new dry legislative program had "teeth" in it. Andrews, it was said, will urge congress to change the statutes reading "fine or imprisonment" to "fine and imprisonment;" courts would be allowed to suspend sentences where the facts of the case warranted such action but this system would put the bootlegger on parole and should he be convicted a second time

the penalty would be twice as severe.

NATIONAL

Educational Association Convention In Session.

Washington, Feb. 25.—(UP.)—"Moral turpitude" was recognized at the National Educational Association convention today as a distinct American problem. At a joint meeting with the national conference of social work a program was discussed to teach boys and girls the rudiments of character "so that such things cannot happen."

"Thank goodness, the newspapers have a new phase," said Miss Olive M. Jones, New York City principal. "Moral turpitude has superseded 'crime wave' but it is the same thing so far as the problem of training behavior is concerned."

The relation of education to morals is acknowledged but the schools cannot carry all the responsibility said Miss Jones.

"The teacher, parents, priest or preacher and the social worker must combine forces to overcome the forces of evil which produce our recurring, so-called crime waves," she said.

EXAGGERATION OF INDIAN ATTACKS IN WEST IS TOLD

Prof. Hulbert, Director of Commission on Western History, Reaches Conclusion After Much Research.

Colorado Springs, Colo.—Historical fiction of the Wild West appears to have exaggerated the number of sanguinary attacks by Indians upon immigrant trains along the old Oregon trail. Nature, and not the aborigines, furnished most of the dangers encountered by the pioneers.

These conclusions have been reached by Prof. Archer H. Hulbert, director of the commission on western history, who has just completed the task of mapping six of the most famous old trails from the Missouri river to the Pacific coast.

In a space of forty miles along the Carson river on the trail broken by the forty-niners, 4,000 dead cattle and 3,000 abandoned wagons were left to record the history of the hardships they suffered in the trek for gold. Miners built houses of these wagon wrecks in the days of the Comstock lode discovery in Nevada a decade later.

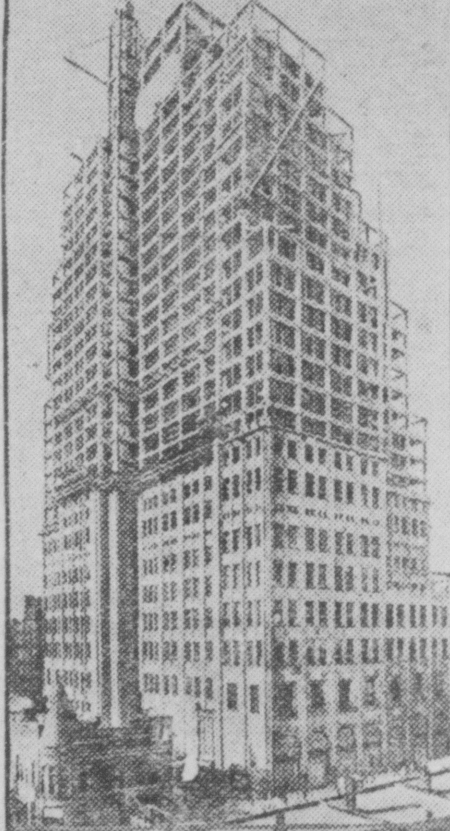

Great rivers were not difficult to cross when "flats" or rafts were secured, but the thousands of little "cut-bank" creeks not more than ten feet wide were the daily terror of the teamsters and delayed the caravans more than did the few rivers of width.

Trappers and gold hunters suffered from Indian attacks more than did the great immigrant trains in the era of mass migration to Oregon. Between 1842 and 1850 the number of trains that were seriously molested by the red men were few, the investigators found.

Information used in the survey and map making was obtained from state and county surveyors' offices, from the original surveys in the general land office at Washington and by studying the diaries of 150 old-time travelers and pioneers.

In addition to the Oregon trail the map reproduces the routes of the Mormon trail fork from Omaha to Fort Laramie; the Nebraska City-Fort Kearney branch; the California trail from Yale post office, Idaho, to the coast; the Salt Lake branch of the California trail; the Forty-niners' trail on Raft river in northwestern Utah; the Salt Lake-Placerville route, and the Overland Stage branch of the main trail from Julesburg, Colo., to Salt Lake City.

Telephone Co. Builds Sky Scraper in St. Louis

This \$5,000,000 building of the Southwest Bell Telephone company, 31 stories high, is now the tallest building in St. Louis, Mo. It stands on the block bounded by Tenth, Eleventh, Chestnut and Pine streets.

New Universe Pictured by Savant and Measured

Chicago.—Another universe, similar to our own, but inconceivably distant in space, has been photographed and measured by Dr. Edwin Hubble, he relates in the Astro-Physical Journal of the University of Chicago.

It is 66,909,872 billion miles from the earth to the galaxy of stars which compose the other universe.

From observations made at Mount Wilson observatory, in California, the scientist has reduced to measurement the universe which was first seen in 1884. Expressing its distance from the earth as 700,000 light years, he estimates the galaxy measures 4,000 light years across. Photographs taken with light which left the universe thousands of years ago show it to be a system of stars similar in appearance to the familiar milky way.

Doctor Parading as Man for 25 Years Is Woman

Mena, Ark.—Serious illness of Dr. M. V. Mayfield, seventy-four, well-known physician of Mena, has revealed that although Doctor Mayfield has been practicing here for 25 years as a man, the doctor was a woman. When her secret became known, Doctor Mayfield told friends her parents in England needed a son to meet legal requirements to protect property rights. They dressed her as a boy and as time wore on the habit became her own.

CUT HIS SON OFF

In His Will Did Father of U. S. Senator Hiram Johnson.

Sacramento, Calif., Feb. 24.—(U.P.)—Love for his son, U. S. Senator Hiram W. Johnson, is expressed in the will of Grove L. Johnson, who died here Feb. 1.

"I make no provision for my son Hiram," the document on file in superior court here today reads, "because he does not need any financial assistance from my estate; hence, I leave him only my love and my pride in his success in life."

Mrs. Helen Alice Johnson, the widow, is the principal beneficiary under the will which provides for disposition of personal property valued at less than \$10,000.

WORSE AND WORSE

This story is told on a prominent westerner and happened in the days before prohibition. He was standing on a street corner when his attention was attracted to two unusually homely women who were conversing a short distance beyond. Turning to a business man acquaintance, he remarked, "Did you ever see a homelier woman in your life; who is she?" indicating one of the women.

"That's my sister," answered the business man. In a desperate effort to square himself the prominent citizen said, "I don't mean that lady, but the other."

"She is my wife," coldly remarked the acquaintance. Mumbling something about having to catch a train, the prominent citizen departed hastily.—Pittsburgh Chronicle-Telegraph.

Date and Nut Puff.

One-half cup stoned dates, 7/8 cup broken nut meats, 3 tablespoons flour 1/2 teaspoon baking powder, 1 tablespoon water, few grains salt, 7/8 cup sugar, 1 egg.

Mix and sift flour, baking powder and salt. Mix well with dates and nuts and put the whole through the food chopper. Beat yolk of egg and add water until thick and lemon colored. Beat in sugar. Add chopped nuts and dates and mix thoroughly. Fold in white of egg beaten until stiff and dry. Turn into a buttered and floured baking dish, cover and put into a pan of hot water. Bake 25 minutes with the cover on the dish. Remove cover and bake 25 minutes longer. Serve with cream whipped and sweetened with sugar and flavored with vanilla.

This recipe will serve four persons.

Early American Diplomats

The first representative of the United States to the papal court at Rome was Jacob L. Martin of South Carolina, who died in office, 1808. He was succeeded by John B. Stockton and Rufus King, who served until 1808, when representation at the Vatican was discontinued.

Himself His Own Hobby

A man came so frequently under the surgeon's manipulations at a London hospital that he made a hobby of collecting himself, in glass jars and bottles. Starting with tonsils, he went on with molars and such components, until he had filled a shelf with "spare parts" carefully dated and described.

RAGGED GAME WAS PLAYED BY OUR TEAM

Chillicothe Cardinals Won From C. A. C. Boys by a Score of 28 to 24.

In one of the poorest demonstrations shown by the club team this year the Chillicothe Cardinals won over the C. A. C. boys by a 28 to 24 count.

It is not the intention to discredit in any way the playing of the Chillicothe team. They played a good game of ball, nevertheless it is a fact that had the club boys played their usual brand of ball Thursday night the boys from down the river would very likely have gone home on the short end of a one sided score. But the club boys had an off night and played a decidedly poor game of basketball. Their passing being very erratic and their goal shooting even worse. Summing it all up in a few words it can be said that the club played a very mediocre game.

Next Thursday night the locals will meet the B. T. U. team of Washington C. H., and fans can rest assured that the club boys will come back strong as they feel the sting of Thursday night's defeat and intend to get revenge even if it is at the expense of a team from another city.

On Saturday night, March 6, will be the basket ball classic Circleville fans have been looking for when the Columbus Kinnear's meet Olson's Swedes on the C. A. C. court.

Score of game:—

C. A. C.	FG.	FT.	PTS.
R. F. Steele	1	2	4
L. F. Gattrel	5	1	11
C. Kirwin	1	0	2
Mason	1	0	2
R. G. Merriman	2	1	5
L. G. Robinson	0	0	0
Smith	0	0	0
Total	10	4	24

Chillicothe C.	FG.	FT.	PTS.
R. F. Dunkle	7	0	14
L. F. Kettera	1	0	2
C. Robinson	2	1	5
R. G. Putnam	3	1	7

Totals	13	2	28

NEW METROPOLIS IN OLD NATIONAL PARK

A new town has sprung up and is being crowded against the eastern boundary of Glacier National park within view of the Rocky mountains.

It is Babb, Mont., which in frontier history used to be nothing but a "cafeteria post office" where cowboys and trappers got their mail out of a pouch left hanging upon the side of a log cabin. And they rode in for a radius of 60 miles to pick up their letters from the folks at home in many of the other 47 states of the Union.

Today it is different. With the population suddenly appreciably increased by the acquisition of many crews of men who are working on the construction of the new government Babb to Many Glacier automobile highway, this burg has grown, almost overnight, into a busy little community. The town has a modern school and the cowboy guides of Glacier park and ranches from the surrounding country step inside an up-to-date post office and have their mails handed out to them from rows of pigeonholes by a bob-haired flapper Indian maiden. In fact everything now is modern and up to date in Babb.

Raw Diamonds Not Costly

Diamonds are sold at an average price of \$16 a carat at the mines in South Africa, while purchasers pay from fifteen to twenty times as much for the cut gem in this country. The rarity of fine stones, an expert says, is but one factor of the high price. The great amount of high-grade labor expended to turn the raw stone into a finished gem is the main item.

The cutting process involves the constant risk of spoiling the entire stone. A first step consists in cleaving the specimen with the grain and requires great care and skill. Small ends are recut into brilliants, while the gem itself is faceted on top and bottom.

The next process involves the lapping of the remaining facets, which requires more time than the cutting and causes the stone to lose from one to two-thirds of its weight.—Popular Mechanics.

Radio Proposing

"Well, theirs at least was one marriage that was made in heaven."

"How's that?"
"He proposed to her by radio."—Louisiana Purple Pel.

Puzzles

Charles—Women are puzzles, aren't they?
Thomas—Yes; I've had to give several of them up.—Finance.

32-MILE TUNNEL THROUGH CASCADES

National, State and Railway Money to Aid.

Seattle, Wash.—Survey of a proposed 32-mile automobile and railroad tunnel through the Cascade mountains has been undertaken by the state of Washington, and a committee authorized by the last legislature will report next January on the feasibility of the plan.

The tunnel would be financed with national, state and railway money. The Simpson tunnel through the Alps, for trains only, now is the longest, with a length of 12 1/2 miles. The Moffat tunnel in Colorado being dug under the main range of the continental divide is six miles long. It will be used by both trains and automobiles and also is designed for carrying water from the western to the eastern slope of the Rocky mountains.

Gen. H. M. Chittenden, who died here in 1917, conceived the idea of the 32-mile Cascade project. He was the originator, too, of the idea for the ship canal which now links Lake Union, within Seattle, and Lake Washington, on the city's inland margin, with Puget sound and the Pacific ocean.

The Great Northern railway already is starting an eight-mile tunnel through the Cascades to eliminate grade difficulties, cut operating costs and reduce operating time of trains several hours.

Tomb of Crusaders Who Died in 1236 Is Found

New York.—News was announced here of the discovery in Jerusalem of the intact tomb of Sir Philip d'Aubeny, who went to Jerusalem with the Fifth Crusade and died there in 1236.

Sir Philip d'Aubeny was the tutor of Henry III of England during the monarch's infancy. He left England in 1222 to embark on the Fifth Crusade under the leadership of the German Emperor Frederick II. The Christians had been expelled by Saladin in 1187, but in 1229 Frederick obtained possession of the city by treaty with Sultan Kameel. The city was in the hands of the Crusaders in 1236, when d'Aubeny died and was buried there. It was recaptured by the Moslems eight years later.

This historical fact of the burial of Sir Philip d'Aubeny had been preserved and it was confirmed about eighty years ago, when a slab was discovered in the courtyard of the Church of the Sepulchre with the epitaph of Sir Philip, a Norman shield and the d'Aubeny armorial bearings. It has always been supposed, however, until a few weeks ago that this slab had been removed from the vault of the Crusader and had been placed in the courtyard of the church merely as paving material.

Change Thames' Course, Briton Urges

London.—The contention of Sir Herbert Stephens, a noted member of Britain's legal world, that London has outgrown the Thames and his proposals for changing the course of the historic river have evoked a heated controversy. Sir Herbert cited the damage caused by recent floods to back up his case.

Sentimentalists are replying that the Thames is Athens, and that it might as well be said that Rome has outgrown its seven hills as to contend that London has outgrown its river.

Many schemes have been mooted for diverting the course of the Thames where it runs through the metropolis, these proposals including underground channels, a dam above the city to make the river provide water power and an enormous ditch to switch the Thames off to the sea through a course which Londoners would never see without taking long trips into the country.

Tough on Willie

New York.—Willie Kallista, sixteen, and six feet three inches, has been unable to stand the children laughing at him and the teachers being scared of him, so he has been confined indefinitely for truancy.

Cheat on Mushrooms

Worcester, Mass.—Mushrooms from Russia have been found weighted, in order to defraud purchasers, with copper jackets from bullets fired during the war.

Kansas Uses Mexican Quail as Farm Labor
Topeka, Kan.—Kansas has found a way to import farm labor without running afoul of the immigration authorities. The state has just imported 5,000 quail from Mexico to help out the Kansas farmers. They are expected to eat up 125,000 insects during the next summer, and, with their brood of young "bobby whites," to destroy at least 250,000,000 weed seeds by autumn.
The Mexican quail is slightly smaller than the native bob white of Kansas, but the state game warden is assured that the two will interbreed. He estimates conservatively that the purchase of 5,000 birds will bring Kansas 25,000 young quail next summer.

If a man fails at being successful, he may at least succeed in being a failure.

The way of the transgressor may be hard, but it's generally pretty smooth.

Any man who can make money can make friends, but he can't always keep either.

Lots of people marry money, but the license is always made out under another name.

As a man grows older he spends less time on his pleasures and more on his ailments.

Idleness is emptiness; the tree in which the sap is stagnant remains fruitless.—Hosea Ballou.

Some men are proud of having descended from their ancestors, others boast of having risen above them.

CHICK RAISERS.

Saturday afternoon, March 13, at 1:30 o'clock is the date that Raymond E. Cray, poultry specialist, Ohio State university has given Pickaway county.

The raising of chicks seems to take the pleasure out of the poultry business for a good many farmers. This meeting is planned for the help of those who are willing to take good advice.

Anyone who is interested may attend this meeting at the Farm bureau office Saturday afternoon, March 13, at 1:30 o'clock.

J. D. BRAGG, County Agent.

APPOINTED CARRIER.

George A. Leist, son of Dr. and Mrs. G. G. Leist has been appointed a substitute letter carrier by Postmaster George P. Foresman.

AMUSEMENTS

"The Trouble with Wives" is out at last!

It's a Paramount picture which opened at the Met theater yesterday. Written directly for the screen by Sada Cowan and Howard Higgin and directed by Malcolm St. Clair, who made "Are Parents People?" "The Trouble With Wives" features Florence Vidor, Tom Moore, Esther Ralston and Ford Sterling.

The particular wife in this story is Florence Vidor. She is a perfectly loving and amiable wife who desires nothing other than to be alone with her husband (Moore), owner of an exclusive shoe shop. But always and ever it seems what he plans just cannot be, for either her mother, whom she adores, or Al Hennessy, played by Ford Sterling, her husband's well-meaning college chum who has a penchant for doing the wrong thing at the wrong time, is forever popping up.

One night Al gets to talking about what a terror Moore used to be in the old days. Miss Vidor's faith in him is shaken just a bit and shattered completely the next day when she discovers he had lunch with Dagmar (Esther Ralston), a pretty little Parisian designer.

A few more little false moves on hubby's part and the wife decides to divorce him, but happily before the papers are drawn up Sterling proves to her that he may be a blunderer at times at other times he is a fast worker. He brings the designer to the fast crumbling house of Hyatt and introduces her to Miss Vidor as his wife.

That means one divorce lawyer is cheated out of a mighty good fee. And they live happily ever after—so we are led to believe at any rate.

There's absolutely nothing the trou ble with "The Trouble With Wives." It's there seven different ways.

Lucy Beaumont, as Miss Vidor's mother, a divorcee; Edward Kennedy, Etta Lee and William Courtright complete the cast.

x x x x x x x x
x HARTMAN THEATER. x
x x x x x x x x

Ziegfeld's most perfect musical comedy, "Louie, the 14th," will be the attraction at the Hartman theater, Columbus, Ohio, commencing next Monday night, March 1. For nine months the famous comedian, Leon Errol, and a mighty cast of singers, dancers and comedians have been delighting "New York" in this glorified hit, and their appearance in Columbus will be one of the notable events of the season. "Louie, the 14th," was written by Arthur Wimperis and Sigmund Romberg, the most popular composer of lovely music in the world. Riotous comedy, marvelous scenic and spectacular effects, gorgeous settings and costumes are included in the wonders of "Louie, the 14th" as well as a complete pageant and the "Homeland male chorus. Supporting Mr. Errol is a brilliant group of principals. Doris Patston was brought here especially from England to create the role of the Peach girl heroine of "Louie, the 14th." Despite her youth she had already achieved fame as one of the stars of the London Revue, "The Punch Bowl." As Colette she is the toast of the officers and their men and the center of attraction in the magnificent banquet scene. Especially interesting also is the appearance of Ethel Shutta and Pauline Mason. Miss Shutta is a gifted dancer and riotous comedienne, while Miss Mason captivates with her speed compelling "Pep" number. Included also in the superb cast are Evelyn Law, highest kicker in the world; Edna Covey, ballerine comique; Florentine Cosnova, talented dancer; Simone do Bouvier and Catherine Calhoun Doucet; Glen Dale, the tenor; Cosmo Bellew; Theodore Babcock, Alfred James. Then, too, are the Cosmopolitan Girls and the most beautiful chorus that Mr. Ziegfeld has ever assembled.

"Louie the 14th," is Ziegfeld's supreme achievement. It is better than "Sally" and funnier than "Kid Boots." —Matinees Wednesday and Saturday. Mail orders now.

ATTENDED INSPECTION.
William B. Cady, John S. Morris, Paul Hinton and Lawrence Curl motored to Chillicothe Thursday evening and attended the annual inspection of the Masonic lodge.

BE WISE, LET BEE BE

E. R. Root, the man who knows more about bees than they know about themselves, gave some sound advice last week when he talked before the Columbus chamber of commerce and released 9,999 bees in the dining room.

Mr. Root said:
"Don't sit on a bee.
"Don't let a bee sit on you.
"Don't slap a strange bee.
"Don't slap a bee, on matter how long you have known her.
"Calling the bee 'honey,' won't make you immune from stings.
"Get their confidence or they'll get you."

All of which is sensible, but we have no intention of trying to win the confidence of any bee, no matter who he or she may be.

London's Zero Hour

London's most tranquil moment in the week is at 3 o'clock on a Sunday morning. Any other morning hundreds of newspaper trucks are dashing about, market carts are hurrying through the streets and the city is otherwise very busy.

GIDDY GIRL

Mrs. Sarah E. Logan, 81, New Athens, Ohio, has started on a 10,000-mile trip to see the most interesting spots of the world so she will "have something to talk about when she grows old," as she puts it.

Nine countries in Africa, Asia and Europe will be visited by the aged Ohio matron.

"To walk thru the streets of Jerusalem will be the thrill of my life," she says.

To Clean Billiard Balls

Ivory billiard balls can be cleaned with a soft cloth, moistened with tepid water. Where the balls are so dirty that this is not effective, a small quantity of alcohol can be used satisfactorily by applying same to a cloth and rubbing the balls until they are clean.

GOING OUT OF BUSINESS.

I will sell my entire stock of groceries away down low. Come in and see me.

Coolie Labor Not Cheap

A Chinese coolie who works for 10 cents a day is paid, according to standards of this country, 20 times what he is worth because he can only move one ton a mile in a day. American railroads move one ton one mile at a cost of only 1/2 cent. The great contrast illustrates the difference between man strength and mechanical power.

REOPEN TUNNEL USED BY GRANT'S TROOPS

Shaft to Be Memorial to "Battle of the Crater."

Petersburg, Va.—One of the greatest pieces of battlefield engineering of the Civil war has been brought to light with the reopening of the main tunnel by which the famous mine under the Confederate works near Petersburg was placed. Explosion of the mine caused the "Battle of the Crater" to go down in history as the most tragic of that war.

Much of its timber still sound, the tunnel is declared to be a model of shoring. It is planned to make of it a shrine to American ingenuity and resourcefulness.

Winding its narrow way 30 feet underground, the tunnel extends a distance of 510 feet from behind what was General Grant's front line to the crater itself. Several parallel and perpendicular shorter tunnels connect with it. Finally the passageway enters a large underground room, believed to have been a Confederate bomb-proof dugout.

Dug in Thirty Days.

It was this gallery, as it was called by the Pennsylvania miners of Colonel Pleasant's regiment who dug it in 30 days, that afforded the means of laying the mines which were intended to clear the obstruction to Grant's march on Richmond. In the success of Colonel Pleasant's plan, which at first Grant described as "claptrap and nonsense," the North had placed its faith for an immediate ending of the war.

Federal troops had been drilled for a month and Grant had concentrated 65,000 troops in the adjacent valley for the charge that was to follow the explosion at 3:30 a. m. of July 30, 1864, which wrecked Elliott's salient and cleared the way to the capital of the Confederacy.

Many sections of the passageway have now been found to be in place just as originally built. Here and there were discovered evidences of the men of the Forty-eighth Pennsylvania Infantry who dug them. Whether the parallel galleries were dug by the men under General Lee in an effort to locate the Federals working underground or by the same men who dug their way 510 feet to the crater, remains undetermined.

300 Were Killed.

Through Colonel Pleasant's tunnel 4,000 pounds of explosives were placed under the Confederate works. While Grant's army waited the fuse was lit. After an hour's wait it was found necessary to enter the tunnel and relight it half way up. A few minutes later came the explosion which sent 300 Confederates to death, caused confusion and delay to the waiting Federal troops, and paved the way for the rush of General Meade's men to their destruction.

A crossfire from Confederate batteries, placed advantageously after it had been learned that their position was being undermined, met the Federals as they charged through the opening made by the explosion. It was two hours before Meade penetrated the thin gray line.

By that time Mahone had come up with his Petersburg brigade, and the celebrated "Crater Charge" drove the enemy beyond the crater, leaving behind more than 5,000 Union dead. The hope of General Grant for the immediate capture of Richmond was wrecked.

Offer College Courses to Japanese Students

Philadelphia.—Under plans launched by the American Friends service committee a selected group of Japanese students will be invited to come to the United States next autumn to study in colleges and universities as the guests of Americans.

The Friends service committee said that a nation-wide appeal would be made for co-operation in carrying out their plans. A number of colleges already have volunteered.

"This is the first concrete proposal," said a statement, "to give general expression to the widespread desire . . . to improve our relations with the people of Japan."

"A Friends service committee, composed of Japanese Quakers, has been formed in Tokyo. This committee will be charged with the selection of the students. The choice will be based entirely on individual fitness and aims and the students will not represent any official or other special interests. "On their arrival in this country they will be placed in volunteer colleges. This will insure the full benefit of the plan to Americans as well as to the Japanese."

Rockefeller's Pity Leads to Return of Boy's Health

Ormond Beach, Fla.—Through the kindly interest of John D. Rockefeller seven-year-old J. C. Holland, Jr., son of Mr. and Mrs. Z. C. Holland of Bunnell, Fla., will be restored to perfect health after being an invalid for five years. His attention was attracted to the boy who was two years old. Several physicians had diagnosed the case as the result of infantile paralysis, but Rockefeller's physician found merely a dislocated hip.

Cheats Blizzard

Amarillo, Texas.—Ima, seven-year-old daughter of Mr. and Mrs. B. T. Dudley, rode for eight hours to keep from freezing to death. She was found almost lifeless, hanging from the saddle of her pony.

A Change From Home

"I wonder why three-fourths of the stenographers in business offices are women?"

"I suppose it's because men like to feel that there is at least one class of women they can dictate to."—Boston Transcript.

Bird Well Nourished
They do these things better in Canada. An employee in Alberta was presented by his employers with a turkey at Christmas. While it was being prepared for the festive board, three gold nuggets, valued at \$10, were found in its crop. As might be expected, the feeding place of that bird is being kept a profound secret.—Christian Science Monitor.

New Scientific Light on Plant Intelligence
An intoxicated carrot has convinced Sir Jagadis Chandra Bose, the British plant psychologist, that plants have intelligence.
Sir Jagadis is more than ever convinced that trees fall in love just as human beings do, as a result of his latest experiments. The intelligence of plants, he says, approaches the instinctive intelligence of the lower forms of animals. He bases his conclusions on observation of the injection of alcohol, chloroform, carbonic acid and other chemicals into living plants. He also has looked into arboreal amours on the spot.
Trees apparently select other trees nearby as objects of affection, Sir Jagadis said in an interview. Trees thus smitten send out tendrils to enfold the objects of their affection.
By injections, Sir Jagadis said he was able to make a carrot drunk or to make it lose consciousness. Plant fibers really are muscles, he contends.

TRY US FOR A WANT AD

Turning Corn Into Dairy Feeds Urged
Surplus Crop Fed to Cows Will Relieve Farmer.

Farmers who are worrying about the surplus of corn and the relatively low price of their product just now can secure as much as \$1.25 a bushel by turning this corn into dairy feeds and market the dairy products.
"By marketing their surplus corn in the form of dairy products," says M. D. Munn, president of the National Dairy council, who has been conferring with leaders in the dairy industry and bankers on the question, "this corn will return the farmer about \$1.25 a bushel based on the average price of dairy products in 1925. By so doing we will not upset the balance of grain produced by having corn consumed in the form of corn meal mush, bread or muffins in place of a bushel of wheat. At best we can only eat a given amount of bread and cereals, and an increased consumption of one form of bread necessarily decreases the consumption of another."
While corn meal mush and milk is palatable and healthful and should be freely eaten, it does not constitute an effective way of consuming the surplus corn. Milk and its products are the most healthful foods we have, and by consuming more of these people will have better health, be more efficient and at the same time directly assist in relieving the farmer of his burden of surplus corn providing they will feed it to the dairy cows in a properly balanced ration.
"If the public is really willing and anxious to help in relieving the farmer of this corn surplus burden," says Mr. Munn, "he can best assist by increasing the consumption of milk, butter, ice cream and cheese and at the same time be more healthful and efficient. The properly balanced ration for the dairy cow includes corn meal, corn gluten feed, together with ground oats, barley, bran, cottonseed meal, beet pulp, etc. This corn gluten feed is a by-product from the manufacture of starch and sugar from corn. Therefore the consuming public can further assist by using more corn sugar and less imported cane sugar."

Raising Turkeys Helps Destroy Grasshoppers
Development of Wyoming as a turkey-producing section has been urged by extension workers of the state and the United States Department of Agriculture for three reasons: The climate induces fattening in time to place the stock early on the holiday markets; live stock growers need a supplemental cash crop; and where there are sufficient turkeys, grasshoppers cease to be a liability and become an asset, for these birds have a high regard for the grasshopper, and large appetites.
In Park county alone Thanksgiving shipment totaled over 75,000 pounds of turkey after four years' emphasis on turkey production. Big Horn, Fremont, Goshen, and other counties have made similar progress.
Increased interest in good stock and good management of the flock was fostered by county agents and other extension workers, with the result that in one year the average weight of the turkeys shipped to market was two pounds heavier than those of the preceding season, and this year's crop is said to show even greater advance.

Corn Yield Problem Is One of Soil Fertility
Corn growers face a problem of raising general soil fertility if they are to redeem production from the decline which depletion of organic matter in the soil has brought about, according to Prof. R. I. Throckmorton, head of the department of agronomy at the Kansas State Agricultural college.
General fertility, Professor Throckmorton pointed out, can be increased by growing corn in rotation with such crops as alfalfa, clover, and soy beans; by returning all manure and corn residue to the soil; and by good tillage methods.
Alfalfa Rated High
Alfalfa is a valuable dairy feed. Many farmers who have alfalfa and their own corn and oats are only paying about \$35 a ton for grain mixtures this winter. Alfalfa not only makes it possible to have a cheap grain mixture but helps cows give more milk than any other roughage will. If alfalfa is not already grown on the farm, get in touch with the county agent and have your soil tested for lime requirements; also obtain sources of good seed and inoculation.

FARM FACTS
Phosphated manure is much more valuable than untreated manure.
Painting the lowest cellar stairstep white reduces possibility of accident from missteps.
The most successful farmer is the one who incorporates into his mental capital lessons from experience of other farmers and investigators.
When it is inconvenient and often impossible for the farm family to make frequent visits to local markets during the winter months, the vegetables needed should come from the supply furnished by the farm garden.

Age of Engineering
Experiments in California to ascertain if the cheaper thin-walled arch dam is better than the more expensive gravity structure indicate that the engineering descendants of the man who wanted but a lever and a place on which to stand to move the world now only ask for an opportunity to prove that they can heat, light and transport the world by water power.

Evolution
Man is a living waterfall; so is a nation—preserving its identity, appearance, but constantly changing and losing its individual particles.—Draper.

Brunson Now Pays 6%---But Brunson Still Makes Loans at 6½%

6%

Because of its low operating expenses, the Brunson has increased its interest rate on regular Certificates of Deposit from 5 per cent to 6 per cent, and maintained its former lending rate of 6 and one half per cent on first mortgages. Other companies lend at the same rate as the Brunson, but pay 5 per cent on certificates. Brunson depositors therefore secure both the highest return and greatest safety.

The Pyramids

The "Pyramid Field" lies in the eastern desert near Cairo, Egypt. There are altogether about seventy pyramids, nineteen of which have been identified. The best known are the three pyramids of Giza (Gizeh), that of Unas, the brick pyramid of Dahshur, and that of Sneferu at Medium. They are said to be the tombs of royal and august personages.

BIRTHS

To Mr. and Mrs. Harry Speakman, of Ashville, Friday, February 19, 1926, a daughter, Beatrice Ann.

To Mr. and Mrs. Charles Hixon, of South Washington street, Thursday, February 25, 1926, a son.

To Mr. and Mrs. George Fissell, of Kingston, Friday, February 19, 1926, a daughter.

CANAL BOATS WERE VIEWED WITH WONDER

Created as Much Interest as the Twentieth Century Express Train of our Day.

The first canal boat operated on the Ohio canals moved over the stretch lying between Akron and Cleveland. This was the most expensive piece of the Ohio canals to be constructed—the 32 miles having 41 locks and three considerable aqueducts; yet it was the first to be finished. The water-shed across Ohio approaches very close to the lake shore at this point, and by the time the canal reaches Akron it has well nigh climbed to the crest dividing the waters that flow into the Mississippi basin from those which run into the St. Lawrence basin.

It was on July 4, 1827, that this first Ohio canal boat was navigated from Akron to Cleveland. That was exactly two years from the day ground was first broken in the construction of the canals. The boat carried a large party of people, mostly officials, and crowds gathered from all parts of the surrounding country to see the boat pass. Governor Trimble thought the matter important enough to treat of it in his annual message to the legislature.

In November of that same year a portion of the southern end of the Miami & Erie canal was completed and three canal boats were navigated upon it from Cincinnati to Middletown on November 28. They were crowded with people anxious to experience the sensation of traveling by this new method. It was recorded that the boats made the remarkable speed of three miles an hour, including detentions at the locks and other delays attendant upon the operation of the canal. The inauguration of the Twentieth Century Express train in our own time hardly excited more interest than the beginning of the operation of canal boats in Ohio.—Columbus Dispatch.

SOCIAL CALENDAR

A surprise party was tendered Mrs. J. Justus at her home, 122 East Eleventh avenue, Columbus, Sunday, February 21, by her daughter, Mrs. Frank Jenkins, in honor of her 17th birthday anniversary. Relatives assembled in the absence of the honor guest who had been beguiled into paying a little visit to her daughter, Mrs. John Howard, of East Eleventh avenue. After a lunch was served the time was spent in music and visiting. The guests departed late in the day deciding to come back when they would find her "at home." Those present were Mrs. Frances Funk and son, George, Mrs. J. C. Lohr and family, Mr. and Mrs. Joe Morris, of London; Mrs. Mary Justus, Mr. and Mrs. John Coakley, of Circleville; Mr. and Mrs. Harl Dillsaver, of Amanda; Mr. and Mrs. John Neff and daughter, of Stoutsville; Mr. and Mrs. Lee Conrad and daughter, Mr. and Mrs. Merrill Markwood, of Lancaster; Mr. and Mrs. Charles Stoer and family of Williamsport; Mr. and Mrs. B. F. See, Mrs. Theda Asher, Mr. Rae Haller, Mr. and Mrs. John Howard, Mr. and Mrs. F. C. Jenkins, of Columbus.

PERSONALS

Mrs. Albert Morris spent the day in Columbus.

Fred Fissell was a business visitor in Columbus today.

Mr. and Mrs. Arlo Waliser are visiting friends in Columbus.

Mr. and Mrs. Harrison Zellmer spent the day in Columbus.

Judge E. A. Brown and I. F. Snyder were in Ashville today on legal business.

Mrs. Charles Hall, who was called to Cincinnati by the illness of her sister, Miss Lida Kay, has returned to her home on Watt street.

Marion—A verdict of guilty was returned 27 minutes after the jury took the case, when Harry F. Duncan, Zanesville, was found guilty of robbing two bank messengers of the Columbus, Delaware and Marion Electric company, January 11. The holdup took place in front of the Marion police headquarters.

Duncan, on the witness stand, admitted he was a rum runner. He implicated James S. Madden, Columbus, in the robbery. Madden will be tried March 1. Duncan will be sentenced after Madden's trial.

Two-Piece Sports Dress of Green Brocade Silk

A charming two-piece sports dress is made of pale green brocade silk collar and sleeves, tiny tailored pockets being trimmed with heavy white crepe de chine. The sports hat shown on the model is of a darker shade of green milan straw, pike shaped, with brown grosgrain ribbon, and brim bound with same.

Winsome Patterns in New Silks and Crepes

Creme and chiffons in plain colors and in a great variety of new patterns are used lavishly for afternoon and evening dress from both the French and the American creators. The advanced styles in these materials received from the other side and those shown by American manufacturers earlier in the winter are refined in design. The greater number are woven in pastel shades. With the exception of some striking patterns of cubist character and some that are geometric in feeling, the new fabrics are in floral, Watteau scrolls and "confetti" figures, with some distinguished designs inspired as were the Ferronier silks of last spring, by architectural motifs. This year's prints are exceedingly graceful, with much delicacy of detail and beauty of color. The flower-printed chiffons and voiles are poems in color with the wistaria roses, orchids and daffodils on backgrounds of faint tints. Passion flowers, fruit and conventionalized clusters of grapes, vines and leaves are some of the patterns.

Include Slender Lines in Styles for Spring

Sports fabrics express the mannish inclination through imported novelty tweeds, in which subdued colorings and neat, definite designs, achieve that enviable air of smartness with restraint. This type is a godsend to the woman who admires brighter shades now in vogue, but for one reason or another does not wish to wear them.

Such substantial tweeds, in company with jersey, novelty plaids, flannels and bordered woollens is active principally in coat or suit types. In these, despite the presence of capulet theme and shoulder flare, there is a clear survival of straight lines. Even the types noted seek a slim effect, while topcoats, either full or three-quarters length, frequently show a straight silhouette.

This is partly because it is after all the most flattering to women with pounds to hide, and partly because fabrics are so all important just now that they must be set off by the simplest of styling.

Buckle Is Important as Trimming Detail

The buckle contributes one of the most important trimming details of the season. It is quite a glittering ornament when it is of rhinestones and is used to adorn one of the new felt hats or one of satin. The buckle of felt in self or contrasting color is another trimming means frequently employed for smart little felt hats.

Somewhat different is the use of gold kid buckles to finish the gold belt on brown crepe dress. Another buckle, somewhat smaller, finishes the gold kid band which lends the illusion of a two-piece style to this model. A third buckle, smaller still than either of the other two, adorns the very edge of the skirt.

For Evening Gowns

Drecol makes much use of the close-fitting bodice and swathed draperies about the hips this season. Evening gowns, in the new shades of rose and red, with deep fox bands and Persian jeweled girdle, strike an oriental note. There is more workmanship in the cutting and fitting of the gorgeous materials than there is in trimming to give an effect of elaborateness to what is in reality very simple dressmaking. This expedient is apparent in certain of the less famous houses.

"The Store That Treats You Right."

Featuring

"Club Clothes" Suits

AT 3 SUPER VALUE PRICES

\$25, \$30, \$35

Truth is stranger, and stronger than fiction! It may seem strange to say that no other store in this city has anything to equal our suits at \$30 and \$35, but anyone who cares to LOOK AROUND can prove that this TRUTH is stranger and stronger than fiction!

"Club Clothes" Suits are worn by the best dressed men everywhere. Anything you buy here is guaranteed and bought with confidence.

H. B. COLWELL

Successor to COLWELL & KATZ

WHAT IS TO BE DONE?

"A very difficult question," the President calls the traffic casualties of the time. The figures that he cites—24,000 persons killed in a year upon the streets and highways of the country, and probably more than 500,000 injured. This means that over a period of the same length as our participation in the world war Americans are losing three-fourths as many lives on streets and roads as they lost to German bullets, and running up in addition a non-fatal casualty list thrice as great as they did abroad.

"The president has asked all the governors to appoint delegates to a national safety convention to assemble in March. While we know of no formula to meet the situation he has outlined the conference may write history by focusing public attention on the national aspects of a problem made up of a multitude of incidents at street corners and cross roads. Many communities are at work seeking and applying remedies.

The figures set forth in this article certainly ought to be a very convincing argument for

PICKAWAY U. B. CIRCUIT,
Rev. George Weir, Pastor,
458 East Franklin Street.

Dresbach Sunday school 9:30. Class meeting to follow.

Morris Services discontinued another Sunday.

Pontius Sunday school 9:30. Preaching at 10:30. Y. P. S. C. E. at 7:30. Threatening Rural Dry-Rot.

"If the American farmer slowly sings into peasantry thru national unconcern, if the rural church sinks and goes down with him, it will be due, in my estimation, to the sickness of the American church; it will not be a case of national decline due to the temporary eclipse of religion. It will be at base a case of bad economics or bad politics. The aristocratic superiorities of a dozen righteous cults—will have brought on the doom."—Professor C. J. Galpin, U. S. Dept. of Agriculture.

C-O-D Is Cod

Little Sara happened over to her married sister's home just after the coal man had delivered some coal. She noticed the coal bill on the table with these letters at the bottom: C.O.D. and said: "Well, the same man must have delivered your coal that delivered ours, because his name was Cod, too."—Indianapolis News.

LOANS UP TO \$500.00.

Adding in the carrying charge as part of the cost when you buy a thing "on time" is good practice in one sense, but doubtful in another. It enables a great many people to buy things that otherwise they could never afford to own. It also increases business production and in that manner improves the general prosperity of the country. But from the standpoint of the individual buyer, it makes a doubtful bargain, because all the "ifs" are in favor of the seller. If you pay too fast, you pay too much interest. If you pay too slowly, all you have previously paid may be sacrificed and you risk losing what you bought besides. Under the popular City Loan Plan you can borrow the cash to buy what you want, and pay the carrying charge—not in advance, but month to month just as you go. C. G. CHALFIN, Manager. THE CITY LOAN & SAVINGS COMPANY 113 North Court St.

Dark Garments Gather the same soil that shows on light clothes.

BARNHILL Cleaning and Laundry.

Columbus—Under arrest Friday for running down William Pallas, 13, and probably fatally injuring the lad, John Smith, 27, faced court as a "hit-skip" driver.

Smith did not stop after the accident, but added speed to his machine, police said. His license number was obtained by a man standing nearby at the time.
